GLOSSARY

Acanthos..... Thorned; thorny.
 Alba..... White.
 Amabilis..... Beautiful.
 Amoena..... Pretty.
 Angliae..... English.
 Andra or
 Androus..... Stamens, or having
 stamens.
 Arbor..... Tree.
 Arborescens..... Resembling or growing
 like a tree.
 Argentea..... Silvery.
 Arguta..... Shining; bright.
 Asplenifolia..... Fern-leaved.
 Aster..... Star.
 Asteroides..... Having form of a star.
 Atro..... Dark.
 Atropurpurea..... Dark purple.
 Aurea..... Golden.
 Biptera..... Two-winged.
 Callosa..... Hard; hard stem or bark
 Campanula..... Formed like a bell.
 Campestris..... Field-grown, or wild.
 Candida..... Pure white.
 Candidissima..... The very whitest.
 Caprea..... Goat; having tendrils.
 Carpum..... Seed, or seed pod.
 Castrum..... Natural; steril.
 Coccinea..... Scarlet.
 Coerulea } ..Blue; sky blue.
 Coeruleus }
 Communis..... Common; ordinary.
 Coniferous..... Bearing cones.
 Cordata..... Heart-shaped.
 Coronarius..... Garlanded; crowned.
 Cortex } ..Bark.
 Corticis }
 Crenate..... Scalloped edge.
 Cyanea..... Blue; dark blue.
 Deciduous..... Shedding leaves in Fall;
 not evergreen.
 Dentata..... Toothed; resembling
 teeth.
 Eburna..... Ivory; ivory-like.
 Edulis..... Edible.

Elatus..... Erect; upright.
 Fastigiata..... Tapering; pointed.
 Floribunda..... Flowering; heavy flow-
 ering.
 Florida..... Bright flowering.
 Folia..... Leaf, or leaved.
 Glauca..... Blue; pale blue.
 Gracilis..... Graceful; slender.
 Helio..... The sun.
 Hispida..... Rough; hairy.
 Japonica..... Japanese; from Japan.
 Laciniata..... Cut-leaved.
 Lanceolata..... Lance shaped.
 Major..... Greater.
 Masculula..... Spotted.
 Monoptera..... One-winged.
 Multi..... Many.
 Multiflorum..... Flowering abundantly.
 Multifolium..... Heavy foliage.
 Nana..... Dwarf.
 Nigra..... Dark; black.
 Nova, or
 Novae..... New.
 Occidentalis..... Western.
 Odoratus..... Fragrant.
 Orientalis..... Eastern.
 Ovalifolium..... Oval shaped.
 Opulifolia..... Rich looking, or bright
 leaved.
 Paniculata..... A tuft, or flat faced
 cluster.
 Ped..... Foot.
 Pendula..... Hanging; weeping.
 Penta..... Five.
 Pentandra..... Five stamens.
 Peonifolia..... Peony-leaved.
 Persicifolia..... Peach-leaved.
 Pisifera..... Pea-like, or pea-bearing.
 Plena, or
 pleno..... Full; double.
 Plicatum..... Folded; involved.
 Plumosa..... Plume-like; in feathery
 tufts.
 Podium..... Podded; foot.
 Poly..... Many.

Procumbens..... Reclining; not erect.
 Prostrata..... Creeping; no trunk.
 Ptera..... Wing, or winged.
 Punctilobula..... Spotted, or perforated.
 Punicea..... Pink, or carmine.
 Quercifolia..... Oak-leaved.
 Quercus..... Oak.
 Racemosus..... Bearing racemes; small
 clusters of flowers.
 Recumbens..... Lying flat; creeping.
 Robusta..... Strong; vigorous; hardy.
 Rosea..... Flush pink, or rose.
 Rotund..... Round.
 Rotundifolia..... Round-leaved.
 Rubra..... Red.
 Sanguinea..... Blood-colored leaves or
 sap.
 Scabra..... Rough.
 Scandens..... Climbing.
 Sempervirens..... Evergreen.
 Sensibilis..... Sensitive.
 Sessifolia..... Without leaf, stem or
 flower stem.
 Serate..... Saw toothed; fine
 toothed.
 Simplex..... Single, or simple.
 Sol, or Soleil..... The Sun.
 Spectabilis..... Showy.
 Squarrosa..... Spreading at right
 angles.
 Suspensa..... Hanging downward.
 Tetraloba..... Four-lobed.
 Tetraptera..... Four-winged.
 Tomentosum..... Hairy; wooly.
 Tricanthos..... Thorned, or thorny.
 Trilobed..... Three-lobed.
 Triptera..... Three-winged.
 Variegata..... Variegated.
 Virens..... Green.
 Viridissima..... Exceedingly green.
 Virida, or
 Virida..... Green.
 Vitellina..... Membranous.
 Vulgaris..... Common; well known;
 abundant.

BUSINESS TERMS

TERMS. Our terms are net cash, or satisfactory reference.

PACKING. No charge is made for packing or delivering to freight depot, express office or boat landing.

ERRORS. We desire to be informed at once of any errors we may make, and we hold ourselves in readiness promptly to rectify them so far as possible.

NOTE. All stock should be unpacked upon receipt and planted, or trenched in the shade until you are ready to plant permanently.

GUARANTEE. Goods planted by ourselves, or by our approval, guaranteed through the season, unless destroyed by natural or artificial catastrophe.

SUCCESSFUL LANDSCAPE PLANTING

Our Landscape Department designs plantings for all sorts of places.

We draw plans on scale, showing by the location of drives, walks, groupings and borders the effect the proposed planting will give you. We prepare the necessary specifications, telling the name and number of plants required to produce the desired results.

The charge for such work is very moderate and will be cancelled from the bill when the plan is accepted. Give us your idea and we make you a design.

Estimates and information always cheerfully given.

CERTIFICATE OF INSPECTION OF NURSERY STOCK

This is to certify That the stock in the nursery of Sunnyfield Nursery Co. of Poughkeepsie, County of Dutchess, State of New York, was duly examined in compliance with the provisions of Section 83 of the Agricultural Law, and it was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 1912.

C. A. WIETING,
Commissioner of Agriculture.

Dated, Albany, N. Y., September 1st, 1911.

Ready for Shipment

One of our landscape plantings, the first shrubs just planted

INTRODUCTION

THE Sunnyfield Nursery Company is a corporation engaged in supplying Trees, Vines and Shrubbery for landscape decoration in private or public parks, or for lawns. We are also prepared to execute, with promptness and efficiency, orders for architectural lawn ornamentation, rustic work of all kinds, stone terracing, statuary, fountains and gates; grading, spraying, trimming and preservation of decayed trees. Insecticides and lawn material of all sorts supplied. Nine years ago we started in a modest way and gradually, but continuously and with steady acceleration, we have built up a business reaching into every State in the East and Middle West.

We have in our fields, not only a varied stock, but our trees vary in size from little seedlings of a few months' growth to well-developed specimens twenty-five years old. The older and larger grades will, of course, give immediate results, which would otherwise require years of patient waiting to attain.

Our aim is, and has always been, to grow trees, shrubbery, perennials, etc., as well as they can be grown; to plant with greatest care; to advise correctly; to select only best stock; not to overcrowd plantings; and in every other way to serve the best interests of our customers, proving, by our advancing trade and steadily retained customers, that best service to the customer is best profit to the dealer.

We can supply all stock wanted. All regular varieties in trade we keep in stock, and everything not mentioned in the following pages we can promptly supply through our numerous correspondents.

LOCATION

Our splendid location makes our shipping facilities unsurpassed. Situated on the banks of the Hudson River and within a city which is a railroad center, we can ship to any point North, South, East or West direct by rail, and to New York City and Albany, and river towns between, and to the various railroad terminals touching the Hudson River, by the cheap transportation afforded by steamboats. The N. Y. Central & Hudson River R. R., the N. Y., N. H. & Hartford R. R., and the Central New England R. R. all have stations here, and the West Shore R. R., by ferry, has a station at Highland, directly opposite Poughkeepsie; while the Erie R. R., Lackawanna & Western R. R. and other lines are reached by short connections over the great Poughkeepsie R. R. Bridge. The American, the Adams and the National Express Companies receive our goods, and so by direct routes and in shortest time and with least changes of car we can ship to any point in the country.

Our telegraph office is Poughkeepsie, N. Y.

Our telephone numbers, local or long distance, are: For office on our grounds, 663-W; superintendent's private office 1718; Nursery office (8 A. M. to 5 P. M.) 663-W.

REFERENCES

In particular, to the Farmers and Manufacturers' National Bank, Poughkeepsie, N. Y.; in general, to any Poughkeepsie Bank or Trust Company. Or we will, on special application, be glad to name some of our customers for whom we have done considerable, fine and satisfactory work.

An attractive corner on our show grounds

Coniferous Evergreens

Evergreens are among our specialties. The soil in our Nurseries is splendidly adapted to the growth and keeping of Evergreens. It also affords good balls of earth, adhering well to the roots, minimizing the danger of loss in transplantation.

Evergreens are very desirable for specimen lawn trees. They are extensively used for massing, for shelter belts, screens, hedges, etc. The taller varieties form perfect backgrounds for smaller, light-foliaged and flowering trees, showy flowering shrubbery, trees of early Spring, the reds and golds of Autumn foliage, the berries of Autumn, and the bright green, golden and silver blue of the smaller growths of Evergreens.

Besides the smaller grades, we have many large handsome specimens, 12 to 18 feet high. While the latter may be more expensive, yet they will give, at once, results which purchasers would otherwise be a long time in obtaining.

HINTS FOR PLANTING

- (1) Unpack and plant as soon after receiving as possible; if there must be a delay of a day or two, wet the balls and keep plants in shade.
- (2) Make the holes three times as large as the balls and one foot deeper.
- (3) If the soil is poor, clay or sandy, good rotten manure should be well mixed with the filling soil in the proportion of one to four; cow manure is best. Never use fresh or partly decomposed manure.
- (4) In dry weather, do not fill in the holes, but leave about five or six inches as a basin which fill with water and let it stand till next day, then complete filling.
- (5) Firmly press the soil about the balls and leave a shallow basin about the tree, making sure that the plant is solidly fixed in the ground.
- (6) Caution: Do not dump raw manure into a hole and set the plants so as to bring roots in direct contact with it; always well mix soil and fertilizer.

TIME FOR PLANTING

Evergreens should be planted in Spring. If an early Spring, till middle of May; if a late Spring, till first week in June; then they should not be planted till August and September, not later than the 20th.

CLIPPING

To preserve their symmetry and beauty, Evergreens should be clipped. Remove overgrown branches so as to make the tree perfect in shape; this should be done in early Spring, before new growth begins. It is a simple process and should be attended to every Spring. Such plants as Junipers, Retinisporas and Thuyas (*Arborvitæ*) will bear severe trimming. Clipping can also be safely done in early Summer. We shall be glad to advise any one on these matters at any time, orally or by letter.

CONIFEROUS EVERGREENS

DESCRIPTIVE LIST

Following is a list of best hardy varieties, specially adapted to the climate of the States of New York, New England and New Jersey. Our collection has been tested for years and has been proven to be entirely hardy and very satisfactory to our customers.

ABIES. Fir

These hardy Evergreens are mostly quick growing; they are useful in producing attractive effects in lawns and parks; ornate when single, or properly correlated to other trees, they produce, when massed, fine wooded effects. The soft, deep green needles are, in most varieties, fragrant with balsamic odors. They are much used for grouping specimens, windbreaks, and hedging.

A. balsamea. *Balsam Fir.* An ornamental native of our forests; very hardy; dark green needles of pleasant fragrance. Grows rapidly when young; does well in most soils.

1½ to 2 feet.....	\$0.50 each, \$4.50 per 10
2 to 3 feet.....	1.25 " 10.00 "
3 to 4 feet.....	2.00 " 17.50 "

A. concolor. *White Fir.* Grows rapidly and forms grand specimens; the needles are large and stiff and usually of a silvery, glaucous color. A rare and choice variety.

1½ to 2 feet.....	\$1.00 each, \$9.00 per 10
2 to 3 feet.....	2.00 " 17.50 "
3 to 4 feet.....	3.00 " "
4 to 5 feet.....	5.00 " "
5 to 6 feet.....	7.00 " "

A. excelsa. *Norway Spruce.* (See *Picea excelsa*, page 9.)

A. Fraseri. *Double Balsam Fir.* Similar to the well-known Balsam Fir, but of finer habit, darker foliage and longer life. Quick grower.

2 to 3 feet.....	\$1.25 each, \$10.00 per 10
3 to 4 feet.....	2.00 " 15.00 per 10
4 to 5 feet.....	2.50 " "
2 to 3 feet size.....	90.00 per 100

A. Nordmanniana. *Nordman's Fir.* Thick, dense tree; symmetrical form; majestic growth; needles are wide, dark green, with silvery under surface that sparkles in the sun. One of the best Evergreens which we offer. Handsome as a specimen or for grouping

2 to 2½ feet.....	\$2.50 each, \$22.50 per 10
2½ to 3 feet.....	3.00 " 27.50 "
3 to 3½ feet.....	4.00 " "
3½ to 4 feet.....	5.00 " "
4 to 5 feet.....	\$6.00 to \$7.00 each
5 to 6 feet.....	7.00 to 10.00 "
6 to 8 feet.....	10.00 to 15.00 "
8 to 10 feet.....	15.00 to 20.00 "
10 to 12 feet.....	20.00 to 30.00 "

A. Veitchii. *Veitch's Silver Fir.* A very rare and beautiful species; needles are dark, lustrous green above and silvery white beneath.

2 to 2½ feet.....	\$1.50 each
2½ to 3 feet.....	2.50 "
3 to 4 feet.....	4.00 "
4 to 5 feet.....	6.00 "
5 to 6 feet.....	7.00 "
6 to 8 feet.....	\$7.50 to \$10.00 each

Abies excelsa. Norway Spruce

BIOTA. Arborvitae (Thuya)

Introduced from the Orient. Strong grower; makes fine specimens; not quite hardy; needs a well protected place.

B. orientalis. *Chinese Arborvitae.* Deep green, feathery foliage.

2½ to 3 feet.....	\$0.75 each, \$6.00 per 10
3 to 4 feet.....	1.00 " 7.50 "
4 to 5 feet.....	1.25 " 10.00 "

B. variegata aurea. *Chinese Golden Arborvitae.* A compact, dwarf variety.

1½ to 2 feet.....	\$1.75 each, \$15.00 per 10
2 to 2½ feet.....	2.00 " 17.50 "

CEDRUS. Cedar

Beautiful trees, but not very hardy north of New York City.

CONIFEROUS EVERGREENS

CEPHALOTAXUS. Oriental Yew

Low growing Evergreen; dark green foliage; hardy in sheltered places only.

CUPRESSUS. Lawson's Cypress

Drooping branches; dark green foliage; only for Southern use.

Note.—Prices of Cedars, Yews and Cypresses on application.

Through our correspondents in all parts of the United States and abroad, we can furnish everything not hardy in this climate.

JUNIPERUS. Juniper

A group of Evergreen trees of medium height down to dwarfs. Their foliage is in different shades of green, yellow and silver. They possess remarkable vigor, doing well in poor, stony soils and in low, damp ground—in fact, thriving almost anywhere. Junipers are more difficult to transplant than some other Evergreens; Spring transplanting is preferable. They are valued for formal effects and to break monotonous outlines of trees. Trailing Junipers are used for rocky slopes and sand banks or stretches.

J. Canadensis. Spreading habit. Foliage pale green.

1½ to 2 feet.....	\$1.00 each, \$7.50 per 10
2 to 2½ feet.....	1.50 " 12.50 "
2½ to 3 feet.....	2.50 "
3 to 4 feet.....	4.00 "

J. Canadensis aurea. Golden Juniper. Dwarf; foliage golden yellow. Very attractive in groups, rockeries, edges, etc. The choicest golden conifer.

	Each	Per 10	Per 100
1 foot.....	\$0.50	\$4.50	\$40.00
1½ feet.....	1.00	8.00	
2 feet.....	2.00	17.50	
2½ feet.....	4.00		

J. Chinensis aurea. Golden Chinese Juniper. One of the finest Evergreens; beautiful golden foliage.

2 to 2½ feet.....	\$2.50 each, \$22.50 per 10
2½ to 3 feet.....	3.00 "
3 to 3½ feet.....	4.50 "

Biota. Arborvitae

Juniperus. Juniper

J. Suecica. Swedish Juniper. Closely resembles the Irish Juniper.

1 to 1½ feet.....	\$1.00 each, \$7.50 per 10
-------------------	----------------------------

J. Sinensis. Chinese Juniper. Handsome shrubs; dark green foliage.

2½ to 3 feet.....	\$1.50 each, \$12.50 per 10
3 to 3½ feet.....	2.50 " 22.50 "
3½ to 4 feet.....	3.50 "
4 to 5 feet.....	5.00 "
5 to 6 feet.....	7.00 "
6 to 8 feet.....	\$8.00 to \$15.00 each

J. Sinensis argentea variegata. Bluish green foliage tipped with white, producing a very fine effect.

2 feet.....	\$1.50 each
3 feet.....	3.50 "
4 feet.....	4.50 "
5 to 6 feet.....	\$6.00 each and up

J. variegata procumbens. Trailing Juniper. Especially used for banks, rockeries, etc.

2 to 2½ feet.....	\$1.50 each, \$12.50 per 10
2½ to 3 feet.....	2.50 " 22.50 "
3 to 4 feet.....	3.50 "

J. Hibernica variegata. Irish Juniper. An exceedingly beautiful variety; fine form; elegant bluish green foliage. Very ornamental.

	Each	Per 10	Per 100
1½ to 2 feet.....	\$0.75	\$5.00	\$35.00
2 to 2½ feet.....	1.00	7.50	60.00
2½ to 3 feet.....	1.50	12.50	

J. variegata aurea Japonica. Golden Japanese Juniper. Golden form or species of Juniperus Japonica.

1½ to 2 feet.....	\$2.00 each, \$17.50 per 10
-------------------	-----------------------------

CONIFEROUS EVERGREENS

Juniperus Japonica. *Japanese Juniper.* Glaucous, light green foliage.

2 to 2½ feet.....	\$2.00 each, \$17.50 per 10
2½ to 3 feet.....	2.50 " 22.50 "
3 to 4 feet.....	3.50 "

J. Sabina. *Savin Juniper.* Spreading form; dark green foliage. Excellent for rockeries, groups, borders, etc.

	Each	Per 10	Per 100
1 to 1½ feet.....	\$0.75	\$6.00	\$50.00
1½ to 2 feet.....	1.50	12.50	
2 to 3 feet.....	2.50	22.50	

J. prostrata. Green leaves. Excellent on terraces to cover rocks; the best Juniper for bare, exposed, sunny places where almost no other plant will grow.

	Each	Per 10	Per 100
1 to 2 feet.....	\$0.50	\$5.00	\$40.00
2 to 2½ feet.....	1.25	10.00	

J. Virginiana. *Virginia Juniper.* *Red Cedar.* Compact growth; varies in habit and color of foliage.

2 to 3 feet.....	\$1.00 each, \$8.00 per 10
3 to 4 feet.....	1.50 " 12.50 "
4 to 5 feet.....	2.00 "

J. Virginiana alba. *Virginia White Cedar.* Same as Virginia Red Cedar, except that it has creamy white branches among the green.

2 to 3 feet.....	\$1.75 each, \$15.00 per 10
3 to 4 feet.....	2.50 "

Juniperus Virginiana. Red Cedar

J. elegantissima. *Golden Cedar.* Golden foliaged species of the preceding class of Junipers. Very effective in Winter.

	Each	Per 10	Per 100
1½ to 2 feet.....	\$1.00	\$9.00	\$85.00
2 to 2½ feet.....	1.50	12.50	
2½ to 3 feet.....	2.50		
3 to 4 feet.....	3.50		

J. Virginiana glauca. *Blue Cedar.* Beautiful blue foliage.

2 to 3 feet.....	\$1.50 each, \$13.50 per 10
3 to 4 feet.....	2.50 " 22.50 "
4 to 5 feet.....	4.00 "

J. Pfitzeriana. A new and perfectly hardy variety, with very attractive green foliage.

1½ to 2 feet.....	\$1.50 each, \$13.50 per 10
2 to 3 feet.....	3.50 "
3 to 4 feet.....	\$5.00 to \$8.00 each

LARIX. Larch

Larches drop their needles in the Autumn. For lots of 100, 1000 and upward, prices on application.

L. Europaea. *European Larch.* Rapid grower; pyramidal.

2 to 3 feet.....	\$0.40 each, \$3.50 per 10
3 to 4 feet.....	1.00 " 8.00 "
4 to 5 feet.....	2.00 " 17.50 "

L. Kämpferi. *Japanese Larch.* Light green foliage; golden yellow in Fall.

1½ to 2 feet.....	\$0.75 each, \$6.00 per 10
2 to 3 feet.....	1.50 " 13.50 "

L. Europaea pendula. *Weeping European Larch.* A beautiful, small tree; very effective on large lawns and in landscape work. Large, rich colored foliage.

2 to 2½ feet.....	\$1.50 each
2½ to 3½ feet.....	2.50 "

Larix Europaea. European Larch

CONIFEROUS EVERGREENS

*Picea pungens glauca.* Koster's Blue Spruce**PICEA. Spruce**

These familiar and beautiful Evergreens need no introduction. They are perfectly hardy, rapid growers and reliable in almost every location. They make elegant trees, whether as stately solitaires, or in showy groups, or as foils or backgrounds to other trees or plants.

P. alba. *White Spruce.* Similar to the Norway Spruce, but foliage silvery green. Perfectly hardy. A valuable Evergreen.

	Each	Per 10	Per 100
2 to 3 feet.....	\$1.50	\$12.50	\$100.00
3 to 4 feet.....	2.00	17.50	
4 to 5 feet.....	\$3.00 to \$5.00 each		

P. Alcockiana. *Alcock's Spruce.* Needles light blue beneath and dark green above. Moderate growth.

2 to 2½ feet.....	\$1.00 each,	\$9.00 per 10
2½ to 3 feet.....	1.50 "	12.50 "
3 to 4 feet.....	3.00 "	

P. Engelmanni. *Engelmann's Spruce.* Foliage a rich silvery sheen; similar to the familiar Blue Spruce.

1 to 2 feet.....	\$1.00 each,	\$9.00 per 10
2 to 3 feet.....	\$3.00 to \$5.00 each	

P. excelsa. *Norway Spruce.* Generally in use; rapid grower; succeeds in nearly all soils. An Evergreen for nearly every purpose; splendid for windbreaks, hedges, groups, etc. Can be trimmed to any desired height; the cheapest Evergreen. Foliage dark green.

	Each	Per 10	Per 100
1½ to 2 feet.....	\$0.50	\$4.50	\$40.00
2 to 3 feet.....	.75	6.50	55.00
3 to 4 feet.....	1.50	12.50	100.00
4 to 5 feet.....	2.00	17.50	160.00
5 to 6 feet.....	4.00	35.00	
6 to 7 feet.....	6.00	55.00	

7 to 8 feet, and upward, fine specimens, well formed and bushy, from \$10.00 to \$30.00, according to tree.

P. orientalis. *Oriental Spruce.* A very graceful tree which should be more generally planted. Slow grower, but makes a fine specimen. Dark green needles, like the Norway, but of finer texture. Hardy; excellent for groups.

	Each	Per 10	Per 100
1½ to 2 feet.....	\$1.50	\$12.50	\$100.00
2 to 2½ feet.....	2.00	17.50	150.00
2½ to 3 feet.....	2.50	22.50	
3 to 3½ feet.....	3.00	27.50	
3½ to 4 feet.....	3.50	32.50	

4 to 5 feet.....\$5.00 to \$7.00 each
Taller specimens quoted on application.

P. pendula. *Weeping Norway Spruce.* Foliage lighter than that of *P. excelsa*. Very odd and irregular in shape. Perfectly hardy.

3 to 4 feet.....\$3.00 each
4 feet and higher, fine specimens, \$4.00, \$4.50 and upward, according to size and shape.

P. pungens. *Colorado Green Spruce.* This is the original form of the now famous Colorado Blue Spruce. The foliage is mostly light green, sometimes light blue. Strong, hardy grower in almost any soil. An ornamental tree of great beauty.

	Each	Per 10	Per 100
1½ to 2 feet.....	\$1.25	\$11.00	\$100.00
2 to 2½ feet.....	1.50	13.00	120.00
2½ to 3 feet.....	2.00	17.50	150.00
3 to 4 feet.....	3.00	27.50	
4 to 5 feet and taller,	\$4.00 to \$8.00 each, and upward.		

CONIFEROUS EVERGREENS

Picea glauca Americana variegata. Colorado Blue Spruce. The common Blue Spruce.

1½ feet.....	\$1.25 each, \$11.00 per 10
2 feet.....	1.50 " 12.50 "
2½ feet.....	2.50 " 22.50 "
3 feet.....	3.00 " 27.50 "
3½ feet.....	3.50 " 31.00 "
4 feet.....	5.00 "
5 feet.....	7.50 "
6 feet up.....	10.00 " and upward.

P. pungens glauca variegata Kosteriana. Koster's Blue Spruce. (Imported.) The finest Evergreen in cultivation. It is perfectly hardy in any climate and adapted to any soil. Striking light blue color. Healthy and symmetrically branched. It does not lose its splendid blue with advancing years as commoner varieties are apt to do. We have a large stock of this kingly Evergreen in all sizes, from one foot up to six feet and taller. There is a constantly increasing demand for this tree, and we make a specialty of dealing in the genuine imported. Our older trees have been many times transplanted and trimmed to fine shape. Our prices are as reasonable as, or more moderate than those of any dealer in highest grade Koster Blue Spruce.

1½ to 2 feet and under.....	\$1.75 to \$2.00 each
2 to 2½ feet.....	2.25 " 2.75 "
2½ to 3 feet.....	3.00 " 4.00 "
3 to 4 feet.....	4.00 " 6.00 "
4 to 5 feet.....	8.00 " 10.00 "
5 to 6 feet.....	10.00 " 15.00 "
6 feet up, \$15.00 to \$25.00 each and upward.	

P. pungens pendula Kosteriana. Weeping Blue Spruce. A graceful, weeping form of Koster's Spruce. A specimen tree for lawns, where it should be placed in the most conspicuous place; also ornamental and appropriate for cemeteries.

3 to 3½ feet.....	\$5.00 each
3½ to 4 feet.....	7.00 "
4 to 5 feet.....	\$8.00 to 10.00 "
5 feet up, \$10.00 to \$12.00 each and upward.	

Picea pungens glauca variegata. Koster's Blue Spruce

PINUS. Pine

No other Evergreens endure such a wide range of climatic conditions. They grow from the frigid zone to the torrid south, in the valleys and on the mountains, and in any soil. They are mostly of upright habit; rapid growers; useful and ornamental for lawn or park, screens, windbreaks, etc.

P. Austriaca. Austrian Pine. Tall; spreading branches; heavily plumed with long, stiff, dark green needles. One of the best.

	Each	Per 10	Per 100
2 to 2½ feet.....	\$1.50	\$12.50	\$110.00

4 to 5 feet, and up, \$8.00 to \$12.00 each and upward.	

Pinus sylvestris. Scotch Pine. See page 11

CONIFEROUS EVERGREENS

**Pinus Strobus. White Pine**

Pinus excelsa. *Bhotan or Himalayan Pine.* One of the most beautiful and hardy Evergreens. Very rapid grower. Needs room to develop. Long silvery needles.

2 to 2½ feet.....	\$1.00 each,	\$9.00 per 10
2½ to 3 feet.....	1.75 "	15.00 "
3 to 4 feet.....	2.00 "	17.50 "
4 to 5 feet.....	3.00 "	
5 to 6 feet.....	5.00 "	

P. Mugho. *Mugbo Pine.* Dwarf. Low, dark, dome-shaped plant; the best dwarf Evergreen. Perfectly hardy; very ornamental. Excellent for lawn specimen, bordering groups, terraces, rockeries, etc.

	Each	Per 10	Per 100
1 to 1½ feet.....	\$1.25	\$10.00	\$90.00
1½ to 2 feet.....	2.00	17.50	160.00
2 feet high and 2 feet broad.....	2.50	22.50	
2½ feet high by 2½ feet broad.....	4.00		
3 feet high by 3 feet broad.....	5.00		
Specimens, from \$6.00 to \$8.00 each.			

P. Strobus. *White Pine.* The grand old favorite. Quick grower; a beautiful, ornamental tree. Endures sandy soils and barren places. Used for about every purpose—grouping, shade, screening, shelter-belts, etc. Needles are soft and bluish green in color; only fine, transplanted, bushy stock is sure to grow.

	Each	Per 10	Per 100
2 to 3 feet.....	\$1.00	\$9.00	\$75.00
3 to 4 feet.....	2.00	17.50	150.00
4 to 5 feet.....	3.00	27.50	
5 to 6 feet.....	4.00	37.50	
6 to 7 feet.....	5.00		
7 to 8 feet.....	7.50		

Specimens, 10 to 14 feet, \$8.00 and upward.

P. sylvestris. *Scotch Pine.* Strong grower; bluish green needles. Useful for temporary effects, but not to be depended upon as permanent trees. Especially fine for mass planting, screens, etc.

	Each	Per 10	Per 100
2½ to 3 feet.....	\$1.25	\$10.00	\$75.00
3 to 4 feet.....	2.00	17.50	150.00
4 to 6 feet.....	2.50	22.50	200.00

Specimens taller than 6 feet, quoted on application.

RETINISPORAS

These are sometimes called Japanese Cedars. This group is very attractive because of remarkable brightness and variety in foliage tints, affording very desirable contrast among other Evergreens. Their colors are attractive throughout all seasons. They are generally of pyramidal habit and, in most soils, are vigorous growers. They seldom attain a height exceeding 30 to 40 feet. They are eminently useful in all ornamental planting and especially well suited for grouping, color contrast, formal effects, hedges, vases, window boxes, etc. They take kindly to trimming and shearing and can, therefore, be kept to their pyramidal shape or to any other ordinary form desired. They are the Evergreen for ornaments for the lawn.

R. filifera. *Thread-branched Retinispora.* Broad, bushy tree; dark green foliage in pendulous, thread-like strings; perfectly hardy. Grows almost anywhere. Excellent for either individual or for group planting.

2½ to 3 ft. spec....	\$4.00 each,	\$35.00 per 10
3 to 4 ft. spec....	7.00 "	65.00 "
7 to 8 feet tall by 7 to 8 feet across,	\$20.00 to \$25.00 each.	

R. filifera aurea. *Thread-branched Golden Retinispora.* Golden foliaged form of the above; very attractive. One of the best and most useful Evergreens.

1 foot tall by 1 foot across.....	\$2.00 each,	\$18.00 per 10
1½ feet tall by 1½ feet across.....	\$5.00 to \$10.00 each	

R. obtusa. *Obtuse-leaved Retinispora.* Upright growth; soft green foliage compact tree. Specimen, suitable for planting on lawns or in groups.

	Each	Per 10	Per 100
1 to 2 feet.....	\$1.00	\$8.00	\$75.00
2½ to 3 feet.....	2.00	18.00	
3 to 4 feet.....	3.00	27.50	

R. pisifera. *Pea-fruited Retinispora.* Slender, open, very graceful branches; foliage light green above, silvery beneath. Certainly one of the best Retinisporas.

	Each	Per 10	Per 100

4 to 5 feet.....	5.00	45.00	
5 to 6-foot specimens...	\$9.00 to \$15.00 each		
6 to 10-foot specimens...	15.00 to 20.00 "		
10 to 12-foot specimens...	20.00 to 40.00 "		

R. sulphurea. Low growing variety; bright sulphur yellow foliage.

	Each	Per 10	Per 100
10 to 12 inches.....	\$0.75	\$6.00	\$50.00
12 to 15 inches tall, 12 to 15 inches diameter....	1.00	8.00	
24 inches tall, 24 inches diameter.....	2.50	22.50	

R. variegata nana. *Dwarf Japanese Retinispora.* Slow growing dwarf, attaining no greater height than three feet; hardy; dark green leaves, in flattened masses, making heavy foliage.

12 to 15 inches.....	\$2.00 each,	\$18.00 per 10	
18 to 24 inches.....	3.00 "	25.00 "	

TAXUS. Yew

This tree is of slow growth. It will grow in nearly any soil. It is very ornamental and effective either in groups or as individual specimens. Plants vary in price according to variety and size.

2 to 3 feet.....\$3.00 each and upward

Special prices, sizes, and descriptions sent on application.

Yews are not hardy in New England and in the Hudson Valley; they may be grown in these sections, but only in sheltered situations and with protection during Winter.

CONIFEROUS EVERGREENS

THUYA. Arborvitae

The trees of the Thuya varieties are generally of upright habit, usually slender with compact, clean, fern-like foliage; neat appearance; easily trimmed. Many are of bright color. Do not reach a great height. Adapted to either small or large lawns. Grow well in different soils. Of almost universal use as Evergreens, being well fitted for grouping, hedging, windbreaks, lawn or cemetery specimens, screens, boxes, house and porch decoration, etc.

T. occidentalis Americana. *American Arborvitae.* Grows anywhere, either as to soil or climate. Soft, light green foliage; from the ground up symmetrical and pyramidal. Necessary to all group plantings of large and small Evergreens; excellent for tubs, vases, and formal planting. Can be kept at any height by trimming; the best Evergreen for hedges, screens, etc.

	Each	Per 10	Per 100
1 to 1½ feet.....	\$0.30	\$2.75	\$25.00
1½ to 2 feet.....	.50	4.50	40.00

8 to 10 feet, specimens...	10.00 to 12.00	"	

Larger sizes, prices on application.

Thuya lutea. Golden Arborvitae

Evergreen Shrubs

These are coming more and more into use every season for the simple reason that they are so effective and desirable in fine landscaping. They remain fresh and green when deciduous trees present only brown trunks and bare, scraggy branches to the eye, and so break the barren aspect, otherwise unavoidable in Winter, where deciduous shrubs and trees alone decorate the lawn or park. The best of all Evergreen shrubs are Kalmias and Rhododendrons, and next for bordering and low filling, Azaleas. We can confidently advise these for their appropriate places in all landscaping.

Buxus sempervirens. Boxwood

EVERGREEN AZALEAS

(For deciduous Azaleas, see page 16.)

A. amœna. A dwarf, bushy Evergreen; retains its small green leaves all Winter; in April and May the plants are covered with claret-colored flowers which continue about three and a half weeks; excellent for borders, edging for drives and walks, for groups and for bordering groups of other and larger shrubs; especially effective with Kalmia and Rhododendrons. We heartily commend this plant and advise its larger and wider use. Our stock is fine.

	Each	Per 10	Per 100
1 to 1¼ feet.....	\$1.00	\$9.00	\$80.00
1¼ to 1½ feet.....	1.50	12.50	115.00
1½ to 2 feet.....	2.00	17.50	

BUXUS SEMPERVIRENS. Boxwood

Very familiar in old-fashioned gardens; not quite hardy. Easily kept in tubs and can be protected within doors during Winter. Excellent for porch decoration and formal effects.

BUSH BOXWOOD. Dwarf for Edging

	Each	Per 10	Per 100
3 to 4 inches.....	\$0.50	\$4.00	\$35.00

BOXWOOD. Standards

2-foot stems; broad, fine crowns; according to size and quality, from \$2.50 to \$6.00 each.

EUONYMUS

E. Japonica. An Evergreen, low growing shrub; not hardy. Prices on application.

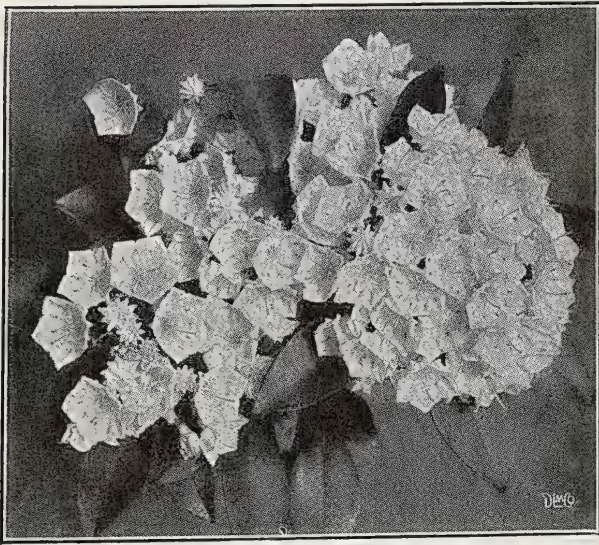

E. radicans. Slow growing; clings tenaciously to rocks and walls; a fine cover.

	Each	Per 10	Per 100
2 years, 6 inches.....	\$0.25	\$2.00	\$16.00

E. variegata. Similar to *Euonymus radicans*, except that its leaves are striped with creamy white. A nice effect is produced on wall or rockery by mixing the two varieties.

	Each	Per 10	Per 100
2 years, 1½ feet.....	\$0.30	\$2.00	\$16.00

EVERGREEN SHRUBS

*Kalmia latifolia*. Mountain Laurel**KALMIA. Laurel**

K. latifolia. *Mountain Laurel.* Very useful and beautiful Evergreens, either alone or intermingled with *Rhododendron*. Grand effects can be obtained by intermixing them. They require shady positions around house, on shaded terrace, around and under trees, and in wooded or grove tracts in parks or large private grounds. They need careful planting; special suggestions for planting by correspondence if desired.

	Each	Per 10	Per 100
1½ to 2 feet.....	\$1.00	\$9.00	\$80.00
2 to 2½ feet.....	2.00	17.50	160.00

Special low prices on *Kalmia* and *Rhododendron*, in large quantities or by car load. Apply for special quotations.

RHODODENDRON MAXIMUM

We have contracts with the producers and shippers in the mountains of North Carolina, Pennsylvania and Massachusetts, by which we can have shipped to any part of the country car load or part car load lots of *Rhododendrons* or *Kalmias* direct from forest to customer, at low rates. They can be shipped from early Spring until the end of May. Rates, with suggestions as to different methods of packing and shipping, planting and culture, will be cheerfully given on application. Blooms—white, sometimes rosy—June and July; the bush Evergreen, for finest effect; always satisfies.

Rhododendron maximum. (Native.)

YUCCA. Adam's Needle

Y. filamentosa. Grows in any soil; blooms in June and July; ivory white flowers in whorls around a tall stalk. Very desirable in borders of herbaceous plants and amid shrubbery; pretty in clusters by itself.

	Each	Per 10	Per 100
2-year plants.....	\$0.25	\$2.00	\$18.00
3-year plants.....	.35	2.75	25.00

Hybrid *Rhododendrons*

Deciduous Shrubs

Shrubs planted individually or in groups are an important factor in any landscape, whether lawn, grounds or park. When planted individually, if given proper space for development and display, their grace, symmetry and beauty cannot be excelled.

In groups, if well chosen as to variety, they are splendid adornments to the lawn; may be used to relieve the stiff lines of foundation walls and porches, screen unsightly objects, buildings, etc.

In lines or beds along fences, driveways and walks, or at the edges of the lawn, and in groups in corners, they can be so chosen as to variety and so planted as to give a succession of bloom from early Spring to frost. In this connection, we suggest that in grouping or bedding shrubs, they should have a sprinkling of foliage plants having purple and yellow leaves as a permanent, pleasing contrast amid the body of green.

When the leaves are gone the brilliant fruit of some, and bright colored, frost touched foliage clinging to others, add variety and interest to the monotony of Winter.

We keep a large variety of shrubs, suited to every purpose and our strong, well rooted plants produce immediate effects, not attained with smaller and less developed plants.

Special prices for shrubs in large quantities quoted on application.

AMYGDALUS. Almond

A. communis variegata alba fl. pl. *Flowering Almond.* Slender branches, covered in May with small, double, fragrant, white flowers.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

A. communis rubra fl. pl. Pink or red flowering Almonds.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

AZALEA

Among the most gorgeous and valuable flowering shrubs in cultivation; useful in all kinds of landscape work; can be used in bedding or in massing, and especially in connection with Kalmia and Rhododendron. Useful wherever natural effect is desired or a bordering to tall shrubbery is needed. They grow well in moist, heavy soil and prefer shaded situations. When the bloom is over the seed pods should be removed to increase the next season's bloom.

A. amoena. See page 14, under Evergreen shrubs.

A. arborescens. White flowers, tinged with rose; very fragrant; a good variety.

1½ to 2 feet.....	\$1.00 each, \$7.50 per 10
-------------------	----------------------------

A. calendulacea. *Flame Azalea.* Blooming in May and June with a multitude of large, orange yellow or fiery red blossoms which last a long time.

1½ to 2 feet.....	.75c. each, \$6.00 per 10
-------------------	---------------------------

A. mollis. *Chinese Azalea.* In April and May, literally covered with flowers in shades and tints of red, yellow and white; blossoms larger than in most other Azaleas.

1 foot.....	\$0.50 each, \$4.00 per 10
1½ feet.....	.75 " 6.00 "
2 feet.....	1.25 " 10.00 "

A. Pontica. *Ghent Azalea.* Unequaled for brilliancy and variety in color of bloom; very similar to Azalea mollis, but not quite so large or perfect; colors more delicate. An especially pretty variety to plant among Rhododendrons and broad-leaved Evergreens.

1 foot.....	\$0.75 each, \$6.50 per 10
1½ feet.....	1.00 " 9.00 "
2 feet.....	1.25 " 10.00 "

A. Vaseyi. *Southern Azalea.* Blossoms in April and May; white or deep rose flowers; profuse bloom.

1 to 1½ feet.....	\$0.50 each, \$4.00 per 10
1½ to 2 feet.....	1.00 " 9.00 "
2 to 2½ feet.....	1.25 " 10.00 "

A. viscosa. In June and July, white flowers tinged with rose. Fine for swampy ground. Prices on application.

Azalea mollis. Chinese Azalea

DECIDUOUS SHRUBS

Berberis Thunbergii. Japanese Barberry

BERBERIS. Barberry

Valuable small shrubs, varying, according to variety, in size and height, from three feet to six feet. Graceful, feathery foliage; showy flowers in early Summer, succeeded by bright scarlet berries lasting through Fall and Winter. They grow in dry and shaded situations as well as in moist or sunny localities. Invaluable for low hedges, boundaries, etc. Specimens also make fine individual or group setting; also valued for fronting groups of larger shrubs. Can be planted in either Spring or Autumn.

B. Thunbergii. *Japanese Barberry.* A beautiful Japanese variety of dwarf habit. Foliage small, changing to a beautiful red in Autumn. Desirable for almost any purpose.

12 to 15 inches, Each	Per 10	Per 100
plant 10 inches apart	\$0.25	\$2.00
18 to 24 inches, plant 12 inches apart .	.30	2.75
30 inches, plant 15 inches apart	.50	4.00
		30.00

B. vulgaris. *Common European Barberry.* Yellow flowers in early Spring; in Autumn orange-scarlet berries.

18 to 24 inches, plant 12 inches apart .	\$0.25	\$3.00	\$20.00
24 to 36 inches, plant 18 inches apart .	.50	4.00	30.00

B. vulgaris variegata purpurea. *Purple Barberry.* Violet colored foliage and berry; very effective when contrasted with shrubbery of lighter foliage. Two varieties—plain leaved, or variegated. Excellent for shaded place, but will stand sunshine.

2 to 3 feet, 12 to 15 inches apart	\$0.40	\$3.50	\$25.00
3 to 4 feet, 18 inches apart	.60	4.50	35.00

CALYCANTHUS. Sweet Shrub

C. floridus. Chocolate colored bloom; very sweet, aromatic foliage; very ornamental.

2 to 3 feet	\$0.25 each, \$2.00 per 10
3 to 4 feet	.35 " 3.00 "

CARAGANA. Siberian Tree Pea

C. arborescens. Yellow pea-shaped flowers in May.

2 to 3 feet	\$0.35 each, \$3.50 per 10
3 to 4 feet	.50 " 4.00 "

CEPHALANTHUS. Button Bush

C. occidentalis. Blooms in July and August; a tall growing native shrub; globular heads of white flowers.

2 to 3 feet	\$0.35 each, \$3.00 per 10
3 to 4 ft., extra bushy	50c. each, \$4.00 per 10

CERCIS.**Judas Tree, or Red Bud**

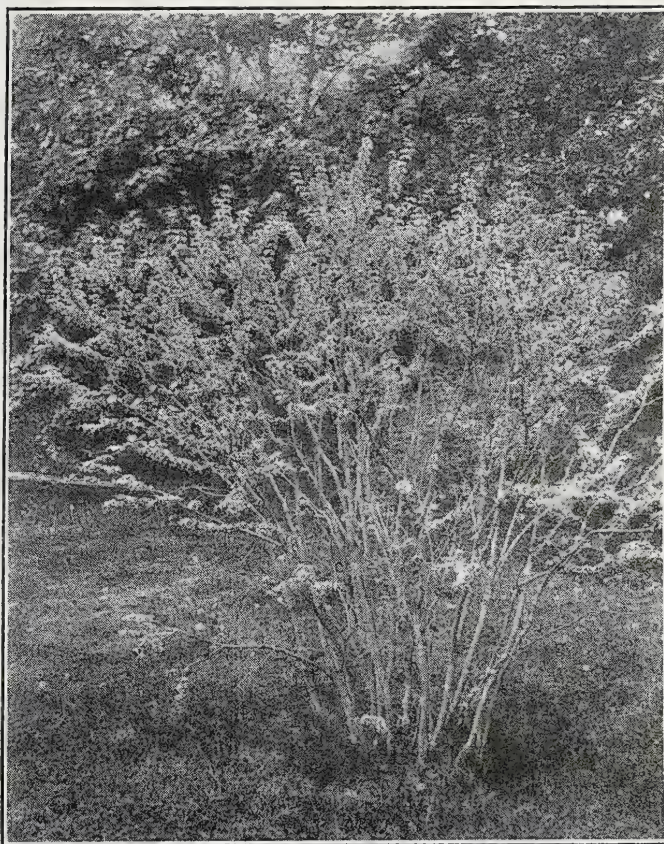

All the branches and twigs of these shrubs are covered with a mass of small pink flowers early in Spring before the leaves appear.

C. Canadensis. *American Red Bud.*

2 to 3 feet	\$0.35 each, \$3.00 per 10
3 to 4 feet	.50 " 4.00 "

C. Japonica. *Japanese Red Bud.*

2 to 3 feet	\$0.50 each, \$4.00 per 10
3 to 4 feet	.75 " 6.00 "

Cercis Japonica. Japanese Red Bud

DECIDUOUS SHRUBS

Cornus. Dogwood

CHIONANTHUS. Fringe Tree

C. Virginica. *White Fringe Tree.* A choice lawn tree or shrub of elegant habit; dark green, glossy foliage; in June large number of pure white, feathery flowers. Very attractive.

2 to 3 feet.....\$0.50 each, \$4.00 per 10
3 to 4 feet......75 " 6.00 "

CLETHRA. Pepper Bush

C. alnifolia. A slow growing bush; in Midsummer spikes of fragrant white flowers; bloom lasts till well in September. Adapted to moist places—for instance, at water edges.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

COLUTEA. Bladder Senna

C. arborescens. Tall shrub; compact growth; small, light green foliage; yellow, pea-shaped flowers; Summer bloom; curious, reddish seed pods in Fall, which are inflated with air. Very hardy; prefer sunny place; suited to any soil.

2 to 3 feet.....\$0.25 each, \$2.00 per 10
3 to 4 feet......35 " 3.00 "

CORYLUS. Hazel

C. maxima variegata purpurea. *Purple Hazelnut.* The best purple-leaved shrub in cultivation. Immune from insect attack. Throughout most of the season has rich purple foliage which retains its color.

2 to 3 feet.....\$0.50 each, \$4.00 per 10
3 to 4 feet......75 " 6.00 "

CORNUS. Dogwood

Dogwoods are strong growers and hardy south of Canada; good growers in almost any soil; do well in either shade or sun. In bush form they are not very remarkable for flowers, but they are highly valued for the various and fine coloring of the leaves in Autumn and for the brilliant coloring of the bark which is especially attractive in the Winter months. Specially suited for large plantings.

C. Sibirica variegata. *Red Siberian Dogwood.* A rare and remarkable variety; bright red twigs in Winter; umbels of white flowers in May.

2 to 3 feet.....\$0.25 each, \$2.00 per 10
3 to 4 feet......35 " 3.00 "
4 to 5 feet......50 " 4.00 "

C. florida. For description and prices, see Deciduous Trees, page 31.

C. mascula. *Cornelian Cherry.* Yellow flowers in April; scarlet fruit in Autumn.

2 to 3 feet.....\$0.25 each, \$2.00 per 10
3 to 4 feet......35 " 3.00 "

C. sanguinea. *Red-branched Dogwood.* The popular red branched Dogwood, the twigs of which are blood red in Winter, greenish white flowers in May and June, followed by small black berries in Autumn.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "
4 to 5 feet......75 " 6.00 "

C. sericea. A late flowering variety, with silky leaves and light blue fruit. Prefers moist places.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

C. Spæthi. *Gold-leaved Dogwood.* Bright yellow bark in Winter. Splendid for contrasting effects.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

DECIDUOUS SHRUBS

CRATAEGUS. Hawthorn

Strong, hardy growers in almost any soil or climate. When closely set and properly trimmed they make a beautiful and almost impenetrable hedge. Very bright and attractive in Autumn; in May and June abundant florescence, fragrant and showy. Some varieties have ornamental fruits, lasting through the Winter.

C. coccinea. Scarlet Thorn. A useful, very hardy native; white flowers in April and May, succeeded later by scarlet fruit.

2 to 3 feet..... \$0.35 each, \$3.00 per 10
3 to 4 feet..... .50 " 4.00 "

C. Crus-galli. Cockspur Thorn. A well-known useful, very hardy variety; native; bright red fruit; long, sharp spines or thorns. Useful for hedges.

C. Oxyacantha. English Hawthorn. Single white flowers; fine for hedges. Write for special prices on large lots.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet..... .50 " 4.00 "
4 to 5 feet.. .75 " 6.00 "

C. Oxyacantha alba fl. pl. Double White Hawthorn. 3 to 4 feet..... 75c. each, \$6.00 per 10

C. Oxyacantha rosea fl. pl. Double Pink Hawthorn. 3 to 4 feet..... 75c. each, \$6.00 per 10

CYTISUS

C. Laburnum. Golden Chain. In early Summer, golden, Wistaria-like flowers; a neat and attractive tree or shrub.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet..... .50 " 4.00 "

CYDONIA. Japan Quince

C. Japonica. A showy and popular shrub, blooming profusely in early Spring with scarlet flowers. Makes an excellent hedge. Its only fault is that San Jose scale is apt to attack it in this vicinity.

1½ to 2 feet.....\$0.25 each, \$2.00 per 10
2 to 3 feet..... .35 " 3.00 "
3 to 4 feet..... .50 " 4.00 "

Deutzia scabra. Rough-leaved Deutzia

Crataegus coccinea. Scarlet Thorn

DEUTZIA

This is a family of profusely flowering shrubs, generally hardy and adapted to most soils. Useful in all shrubberies, either as individual specimens or in groups. Most of the smaller kinds are desirable for forcing.

D. crenata variegata candidissima. Double White Deutzia. Strong grower. In June produces a profusion of pure white, double flowers, tinged with pink.

2 to 3 feet.....\$0.25 each, \$2.00 per 10
3 to 4 feet..... .35 " 3.00 "
4 to 5 ft., extra bushy .50 " 4.00 "

D. variegata. Pride of Rochester. Profuse bloomer; very graceful and handsome; double, white flowers tinged with pink.

2 to 3 feet.....\$0.25 each, \$2.00 per 10
3 to 4 feet..... .40 " 3.50 "

D. crenata variegata Watereri. Single, pink, bell-shaped flowers.

3 to 4 feet.. 35c. each, \$3.00 per 10

D. variegata rosea plena. Soft pink flowers in June. Beautiful; double.

2 to 3 feet.. \$0.25 each, \$2.00 per 10
3 to 4 feet.. .35 " 3.00 "
4 to 5 feet.. .50 " 4.00 "

D. gracilis nana. Dwarf Deutzia. An old-fashioned, fine, hardy shrub; bush forms a round and compact mass; single, white flowers in Spring. Grows in either sunny or shady places. Used also for forcing for Winter flowers.

1 to 1½ feet.. \$0.25 each, \$2.00 per 10
1½ to 2 feet.. .50 " 4.00 "

Fine specimens, extra heavy and bushy, 2½ feet, 75c. each.

D. scabra. Rough-leaved Deutzia. Very vigorous. White, single flowers, bell-shaped and in small bunches; one of the tallest.

2½ to 3 feet.. \$0.35 each, \$3.00 per 10
3 to 4 feet.. .50 " 4.00 "
4 to 5 feet.. .75 " "

DECIDUOUS SHRUBS

DIERVILLA. Weigela

This is one of the most important groups for ornamental planting. Weigelas are strong growers, adapted to almost any soil, and generally quite hardy. Very useful as specimens, or in groups and masses. They flower in May and June in a wealth of bloom all along their branches.

D. florida, syn. rosea. May and June; good, symmetrical grower; fine foliage; blooms profusely. Most flowers are pink, others rose, some few almost white.

2 to 3 feet.....\$0.25 each, \$2.00 per 10
3 to 4 feet......50 " 4.00 "

D. variegata amabilis. Seedling of the last mentioned, but the flowers are more open and graceful. Not so well known, but very commendable.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet, bushy.... .50 " 4.00 "
4 to 5 ft., extra bushy .60 " 5.00 "

D. variegata candida. June; good grower. The only Weigela with pure white flowers.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

D. variegata nana. Dwarf Weigela. June bloomer; the leaves are variegated with golden yellow. One of the best shrubs for color contrast; flowers pale pink. Grows in almost any condition of soil or climate. A desirable plant.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

D. sessilifolia, syn. lutea. A late variety, blooming at end of June; yellow flowers.

2 to 3 feet.....\$0.25 each, \$2.00 per 10
3 to 4 feet......35 " 3.00 "

Diervilla variegata candida

Diervilla florida, syn. rosea

DIERVILLA HYBRIDS

As good growers and bloomers as the parent forms; attain medium heights (from 5 to 8 feet). Bloom about the end of May; in some cases, continue to bloom throughout the Summer.

D. Eva Rathke. Red; almost a continual bloomer.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

D. Gustave Mallet. Light pink, bordered with white.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

D. Stelzneri. Rosy pink flowers, similar to those of *Diervilla florida*.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

D. Van Houttei. Flowers pink and white. Profuse bloomer.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

ELAEAGNUS. Oleaster

E. longipes, syn. edulis. Japanese Oleaster, or Silver Thorn. Silver leaves; scarlet berries in July; not quite hardy.

2 to 3 feet.....\$0.50 each, \$4.00 per 10
3 to 4 feet......75 " 6.00 "

EUONYMUS

A large family of many species of shrubs, both Evergreen and deciduous. For Evergreen varieties see page 14.

E. Europæus. Burning Bush. Very attractive in Autumn when it is covered with orange scarlet seed vessels.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

DECIDUOUS SHRUBS

FORSYTHIA. Golden Bell

Hardy shrubs that come into bloom as Winter is leaving. Bright golden flowers along the naked branches; specially bright and cheerful at such an early season. Grow well in almost any situation. Useful anywhere; especially fine for groups and masses.

F. Fortunei. Bark bright yellow; blooms with golden flowers in April.

2 to 3 feet.....	\$0.25 each, \$2.00 per 10
3 to 4 feet.....	.35 " 3.00 "
4 to 5 feet.....	.50 " 4.00 "
5 to 6 feet.....	.75 " 6.00 "

F. variegata aurea. Like the preceding, except that the leaves are mottled with yellow.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

F. suspensa. *Weeping Golden Bell.* Very attractive when planted as a specimen or in groups, or for covering arches, etc.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

F. viridissima. Spreading branches and bright, glossy, green leaves.

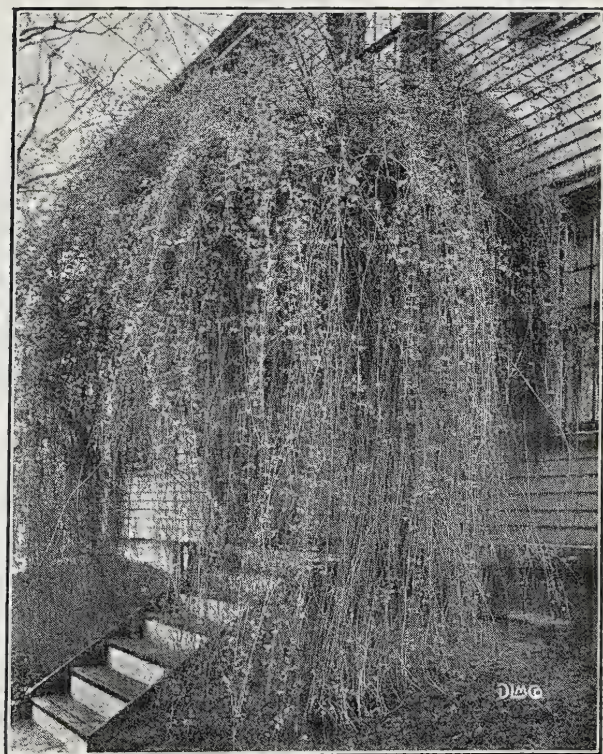

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

HALESIA

A large and beautiful shrub. Prettily shaped, white flowers, resembling Snowdrops; blooms in early Spring. Grows in nearly any good soil and in shady places. Not very hardy; nevertheless, very useful.

H. tetraptera.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

Forsythia suspensa. Weeping Golden Bell

Hibiscus Syriacus. Althaea, or Rose of Sharon

HIBISCUS SYRIACUS. Althaea, or Rose of Sharon

Familiar shrubs, growing in almost any soil or climate below Lake Champlain. Valuable as specimens. Make excellent hedges when sheared and trained, forming a stout, thick bush. Such a hedge can be trained to any desired height. When allowed to grow they form fine and beautiful screens. Should be used in every shrubbery border. They flower abundantly from July until September, in a period comparatively flowerless. Althæas are really one of the most valuable and useful of the deciduous shrubs. Below we give sizes with description of best varieties and prices (except noted otherwise).

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.25	\$2.00	\$15.00
3 to 4 feet.....	.35	3.00	25.00
4 to 5 feet.....	.50	4.00	35.00
5 to 6 feet.....	.75	6.00	50.00
6 to 7 feet.....	1.00	8.00	60.00

Boule de Feu. Red; very double. 2 to 3 feet and 3 to 4 feet.

Jeanne d'Arc. Pure white; very double. 2 to 3 feet and 3 to 4 feet.

Pæoniflorus. White, cherry red center; all sizes.

Comte de Haimont. Pink. 2 to 3 feet and 3 to 4 feet.

Rubis. Dark red; the best single. 2 to 3 feet.

Totus albus simplex. White with red center. 2 to 3 feet, 40c. each, \$3.00 per 10; 3 to 4 feet, 60c. each, \$5.00 per 10.

Cœruleus pleno. Blue; double; all sizes.

JASMINUM

J. nudiflorum. *Yellow Jasmine.* Not perfectly hardy, but will grow well in sheltered situations. Useful for its early bloom—very early in April; in an early Spring it even flowers in late March.

2 to 3 feet.....	35c. each, \$3.00 per 10
------------------	--------------------------

DECIDUOUS SHRUBS

Hydrangea paniculata grandiflora variegata. Great Panicled Hydrangea

HYDRANGEA

This shrub needs no introduction. Hardly any other class is better known, or more esteemed in cultivation. Hydrangeas grow easily, have no insect enemies, and, excepting the Hortensis varieties, are very hardy. Another virtue is in the fact that they bloom in the slack flower months of August and September. Some varieties make splendid hedges where impenetrability to animals is not so essential as a beautiful division line. No finer plant for heavy bordering for roadways through open lawn or partial shade, and along fences and between fenceless lawns.

H. arborescens. A native of our woods; blooms in July; corymbs of white flowers; the hardiest Hydrangeas. Very desirable for planting in shady places.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet..... .50 " 4.00 "

Hydrangea arborescens

H. variegata grandiflora sterilis. *Hills of Snow.* A new variety and highly to be commended. Pure white flowers of immense size.

2 to 3 feet.....75c. each, \$6.00 per 10

H. Hortensis var. Otaksa. The one so generally observed in tubs and vases. Blooms in June, July and August; flowers pink or blue; enormous round flower heads.

1½ to 2 feet.....35c. each, \$3.00 per 10

H. var. Thomas Hogg. Similar to Otaksa; large white flowers; June and August bloomer.

1½ to 2 feet.....35c. each, \$3.00 per 10

H. paniculata grandiflora variegata. *Great Panicled Hydrangea.* Blooms from July to late September; often the flowers are pretty till heavy frost. No shrub is more showy than this favorite Hydrangea. The branches are bent beneath the weight of the large panicles of pure white flowers, changing, later in the season, to pink tints and shades finally to red.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet..... .50 " 4.00 "
4 to 5 feet, bushy.... .75 " 6.00 "

H. paniculata grandiflora arborescens variegata. Same as preceding, except that it grows in tree form. Very attractive as lawn specimen; large heads; stems 2 to 3 feet. Large heads, 75c. each; extra large heads, 4 feet by 4½ feet in diameter up, \$1.00 to \$2.50 each.

DECIDUOUS SHRUBS

Ligustrum. Privet

LIGUSTRUM. Privet

An important group of shrubs, including California Privet. They are not particular as to soil; will grow in sun or shade rapidly. Excellent for shrubby borders or masses; they make fine hedges, yielding to the shears, so as to be kept at any height, or trimmed into fancy shapes, like Box or Bay trees; seldom affected by scale or insect. Shrubs of wide use.

L. Ibot. Narrow leaves; blooms June and July, with fragrant white flower clusters. Hardest of all Privets. A good hedge plant; fine also for lawn decoration, or as a specimen; foliage in Fall, dark red.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

L. Regelianum. Similar to the preceding. Splendid, dense, horizontal growing shrub; fine for borders, hedges or as specimens. Attractive, graceful and very hardy.

	Each	Per 10	Per 100
1½ to 2 feet, plant 10 inches apart.	\$0.25	\$2.00	\$18.00
2 to 3 feet, plant 12 inches apart.	.30	2.50	22.00
Specimens.....	\$0.40 to \$1.00 each		

L. ovalifolium. California Privet. A widely known hedge plant. Vigorous grower anywhere, even in cities. The long, green, glossy foliage, and pure white flowers, blooming in July, make it a generally useful ornamental shrub. Not quite hardy in localities north of Boston, Mass.

2 to 3 feet, extra heavy, 5 to 8 branches, plant 10 to 12 inches apart. \$1.25 per 10, \$9.00 per 100, \$75.00 per 1000; specimens, 25c. to 50c. each.

3 to 4 feet, extra heavy, 6 to 12 branches, plant 12 inches apart. \$2.00 per 10, \$13.00 per 100, \$100.00 per 1000; specimens, 30c. to 75c. each.

4 to 5 feet, plant 15 inches apart. Specimens, 50c. each and up, \$3.00 per 10, \$20.00 per 100.

5 to 6 feet, plant 18 inches apart. Specimens, 75c. each and up, \$3.50 per 10, \$27.50 per 100.

Globe form for formal effects, 1½ by 1½ inches diameter, \$1.00 each.

L. ovalifolium variegata aureum. Golden Privet. Leaves delicately margined with golden yellow; very attractive.

2 to 3 feet.....\$0.50 each, \$4.00 per 10
3 to 4 feet......75 " 6.00 "

L. Sibirica. Very hardy; specially adapted for cold climates.

2 to 3 feet.....\$0.35 each, \$3.00 per 10
3 to 4 feet......50 " 4.00 "

DECIDUOUS SHRUBS

*Lonicera variegata alba*. White Bush Honeysuckle**LONICERA. Honeysuckle**

A group which includes vines as well as shrubs. (For Vines see page 42.) The bush varieties are fine, especially for borders and in shrubbery groups. Hardy and easy growers. Fragrant flowers in Spring; brilliant fruit in Summer and Fall. Prices of Honeysuckle bushes uniform.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.35	\$3.00	\$25.00
3 to 4 feet.....	.50	4.00	

L. Tatarica. *Tartarian Honeysuckle*. Blooms in May; pink flowers that contrast beautifully with the foliage.

L. variegata alba. *White Bush Honeysuckle*. Same as above, except the white flowers.

L. variegata grandiflora. Same as preceding, except the pink flowers and larger blooms.

PHILADELPHUS. Mock Orange, or Syringa

This family is almost immune from insect ravages; strong growers; not elective as to soil; adapted to almost any situation. Valuable for individual or group setting.

P. coronarius. *Garland or Crown Syringa*. Blooms in June; pure white and very fragrant flowers. Best adapted to dry soils.

P. variegata aureus. *Golden Syringa*. Blooms in early Spring; beautiful golden leaves which are very bright throughout the Summer. Very attractive for edging along shrubbery.

P. grandiflorus. Blooms May and June; flowers creamy white; bush large; a desirable shrub.

P. Lemoinei variegata erectus. Smaller leaves; small white flowers. Very attractive.

P. variegata Mont Blanc. Blooms May and June; large white flowers. Very distinct and choice.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.35	\$3.00	\$25.00
3 to 4 feet.....	.50	4.00	

PRUNUS. Ornamental Plum

P. Pissardi. *Purple-leaved Plum*. A bush, or a little tree, with maroon-red foliage; small pink-white flowers. Excellent for groups, color massing or as single lawn specimens.

2 to 3 feet.....	\$0.35 each,	\$3.00 per 10
3 to 4 feet.....	.50 " "	4.00 " "
4 to 5 feet.....	.75 " "	6.00 " "

P. triloba. *Double-flowering Plum*. Yields in April delicate double pink blossoms. A very attractive shrub, very ornamental. Our 3 to 4 feet specimens are fine, grown in nursery rows with plenty of room for development.

2 to 3 feet.....	\$0.35 each,	\$3.00 per 10
3 to 4 feet.....	.50 " "	4.00 " "
4 to 5 feet.....	.75 " "	6.00 " "

RHAMNUS. Buckthorn

A group of tall growing shrubs well suited for mass or border, or screens; for line border rather than path. Good background for large shrubbery planting. Fine for parks and public grounds. Grows well in city atmosphere and in shaded places.

R. Carolina. Attains a height of 25 to 30 feet; bushy, robust habit.

Large specimens, very bushy, 8 feet, \$1.00 each.

ROSES

The bush Roses listed on pages 28-30 are frequently used in shrubbery groups, borders, etc., especially the beautiful Japanese Rose, *Rosa rugosa*. (See page 30.)

*Philadelphus grandiflorus*

DECIDUOUS SHRUBS

RHUS. Sumach, or Smoke Bush

The Sumachs, especially the old-fashioned Smoke Bush, are familiar on old lawns. They are splendid subjects for large plantations and for natural effects, being hardy, strong growers and possessing beautiful foliage. In the Autumn their foliage changes to gorgeous hues.

R. aromatica. *Fragrant Sumach.* Spreading bush; attractive shrub; brilliant crimson foliage in Autumn.

R. Cotinus. *Smoke Tree, Mist Bush, or Purple Fringe Tree.* A curious, large growing shrub, forming broad, round bushes; delicate, feathery flowers in Summer. Profuse bloomer and has the appearance of a cloud of smoke when in full bloom; very decorative.

Prices for the preceding Sumachs:

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "
4 to 5 feet.....	.75 " 6.00 "

R. glabra variegata laciniata. *Cut-leaved Sumach.* This has beautiful cut leaves, equal in grace and intricacy to the most delicate ferns. Brilliant in the Fall. Its showy foliage, combined with its abundant crimson fruit, makes it unique for mass planting where rich color and form effect are desired. Very attractive, also, when trained in tree form.

2 to 3 feet.....	\$0.50 each, \$4.00 per 10
3 to 4 feet.....	1.00 " 8.00 "

RIBES. Flowering Currant

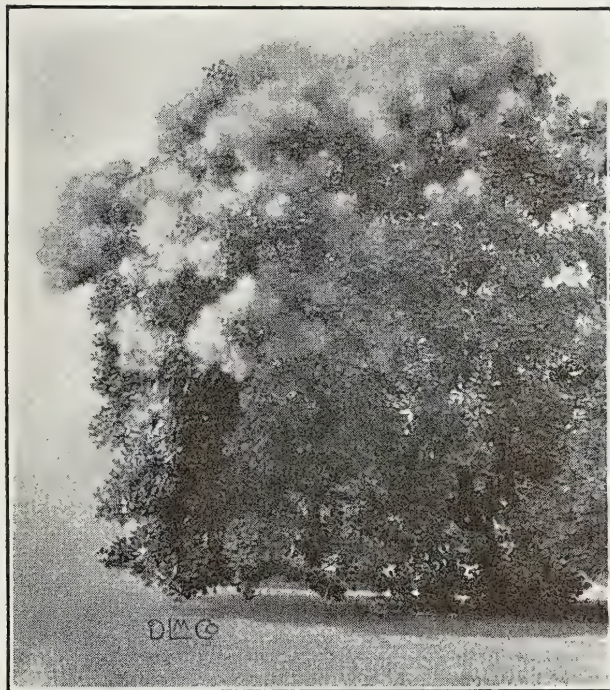

Beautiful shrubs in early Spring, with small bright flowers; very hardy. We list the best varieties.

R. aureum. Golden yellow flowers.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

R. sanguineum. Crimson flowers.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

Rhus Cotinus. Smoke Tree, Mist Bush or Purple Fringe Tree

RUBUS. Bramble

R. odoratus. *Flowering Raspberry.* A hardy native shrub. Highly valued for steep wild bank terraces, where it takes root and spreads rapidly; produces pink or purple blossoms through the Summer. Thrives in sun or shade.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.35	\$3.00	\$25.00
3 to 4 feet.....	.50	4.00	

SAMBUCUS. Elder

Large, showy shrubs, ornamental in flower, fruit and foliage; very easy to cultivate. Valuable for shady places.

S. Canadensis. *Common Elder.* White flowers in June; dark red berries in August and September.

S. nigra aurea. *Golden Elder.* Golden yellow foliage, retaining its color all Summer; very attractive.

S. argentea variegata. *Variegated Elder.* Blooms in May; silvery foliage variegated.

2 to 3 feet...	\$0.25 each, \$2.00 per 10
3 to 4 feet....	.35 each, \$3.00 per 10
4 to 5 feet....	.50 each, \$4.00 per 10

Sambucus Canadensis. Common Elder

DECIDUOUS SHRUBS

Spiraea Van Houttei

SPIRAEA

A large group of shrubs; vary much in size, and in character and time of bloom. Most of the varieties are suited for almost any purpose.

DWARF VARIETIES

- S. Anthony Waterer.** Seldom higher than two feet. A constant bloomer from June until October; rich crimson flower-heads. Valuable wherever a beautiful low bush is needed; especially useful for bordering or fronting groups and masses of larger shrubbery.
- S. arguta.** Pure white flowers early in May; bright, narrow, green leaves, having in Fall brilliant tones of orange and scarlet.
- S. callosa alba.** Blooms all Summer in flat, white clusters.
- S. callosa rubra.** The pink flowers of this variety make it very attractive.

TALL VARIETIES

- S. Douglasii.** Spikes of beautiful, deep rose-colored flowers in July and August.
- S. opulifolia.** Vigorous growers; flat clusters of white flowers in June.
- S. opulifolia aurea.** Flowers like the preceding, but foliage bright golden in Spring, shading darker in Summer.
- S. prunifolia fl. pl.** *Bridal Wreath.* Small double white flowers in early May, close to the branches; a favorite.
- S. Reevesiana.** Flowering in late May and in June with beautiful clusters of white flowers almost covering the branches.
- S. Thunbergii.** Very graceful; the first of the Spiraeas to bloom, flowering early in Spring; pure white flowers; drooping branches; fine, tiny leaves through the Summer.
- S. Van Houttei.** Easily the queen of Spiraeas in grace and beauty. Graceful, pendulous bush, 6 feet high, and equal in diameter. Pure white flowers in May. One of the finest shrubs in existence. Splendid for specimen or individual planting on lawns. Makes very beautiful ornamental hedges; an essential in all ornamental plantations.

Spiraea prices—Dwarf Varieties:

1½ to 2 feet.....	\$0.25 each, \$2.00 per 10
2 to 3 feet.....	.35 " 3.00 "

Spiraea prices—Tall Varieties:

2 to 3 feet.....	\$0.35 each, \$3.00 per 10

SYMPHORICARPUS

Bushy. Medium Size. Popular

- S. racemosus.** *Snowberry.* Small pink flowers during the Summer; large, white, waxy berries in Autumn. Very ornamental.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

- S. vulgaris.** *Coral Berry.* Quick grower; does well in any soil and position; purple berries all Summer.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

SYRINGA. Lilac

Hardy, vigorous shrubs, growing well under almost any condition of weather, position or soil. Always reliable, blooming in great profusion even when much neglected and abused. Easily among the most popular shrubs grown.

- S. Josikaea.** *Hungarian Lilac.* Blooms late in May; light violet-colored flowers; deep green leaves.

- S. Persica alba.** *White Persian Lilac.* A very graceful plant, blooming freely. Very attractive in shrubbery grouping.

- S. Persica rubra.** *Purple Persian Lilac.* Fine variety; profuse bloomer; excellent in any large shrubbery group.

DECIDUOUS SHRUBS

Syringa vulgaris purpurea. *Common Purple Lilac.*

This is the well known, old-fashioned, purple lilac; hardy; vigorous; endures neglect and always blooms abundantly. One of the varieties much used for hedges and screens.

S. vulgaris alba. *Common White Lilac.* Blooms early in May; like the preceding, except white flowering.

Prices for the preceding varieties of Syringa:

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "

For prices per hundred for hedging, ask special quotation.

The following varieties of Syringa are the best in the trade; they grow to a height of 6 to 8 feet. Sizes on hand are shown in parenthesis; larger will be supplied by special order at prices below quoted:

Abel Carriere (2 to 4 feet). Double, pale blue flowers.

Madame Abel Chatenay (2 to 4 feet). Pure white.

Charles X (2 to 3 feet). Reddish purple in loose trusses.

Madame Casimir-Perier (2 to 4 feet). Semi-double, pure white.

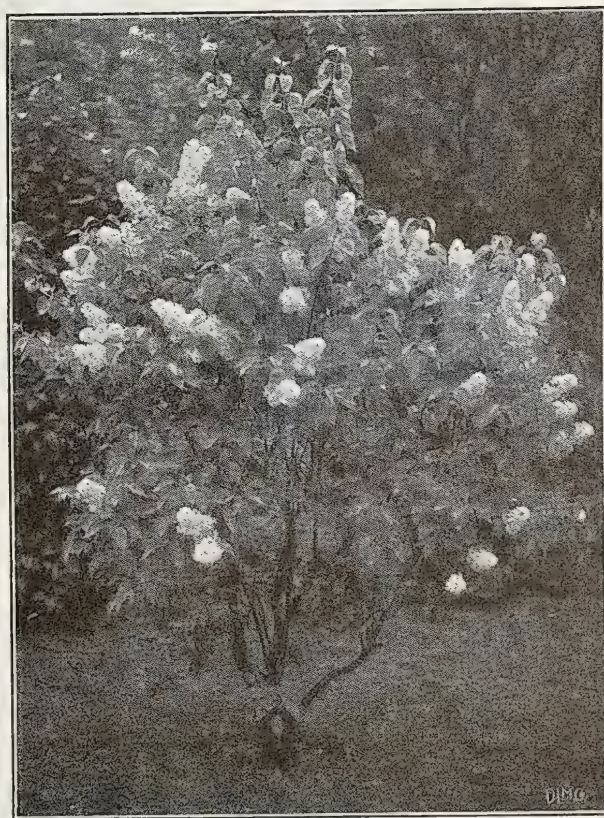

Marie Legraye (1½ to 3 feet). Smaller grower single white.

Souvenir de Ludwig Spæth (2 to 4 feet). Single, dark purple.

Prices of any of the six preceding Syringas:

1½ to 2 feet.....	\$0.35 each, \$3.00 per 10
2 to 3 feet.....	.50 " 4.00 "
3 to 4 feet.....	.75 " 6.00 "
4 to 5 feet.....	1.00 " 8.00 "
6 feet.....	1.25 "

Syringas not mentioned, of any variety or size, will be secured for our customers, through our correspondents, at as low rates as any nursery offers.

Syringa vulgaris alba. Common White Lilac

VIBURNUM. Snowball

Fine shrubs with beautiful flowers in Spring. Invaluable in shrubbery borders; very desirable as lawn specimens and for lawn bordering.

V. Opulus. White flowers in May; blooms in flat clusters; bush has spreading habit. Brilliant red berries all Winter.

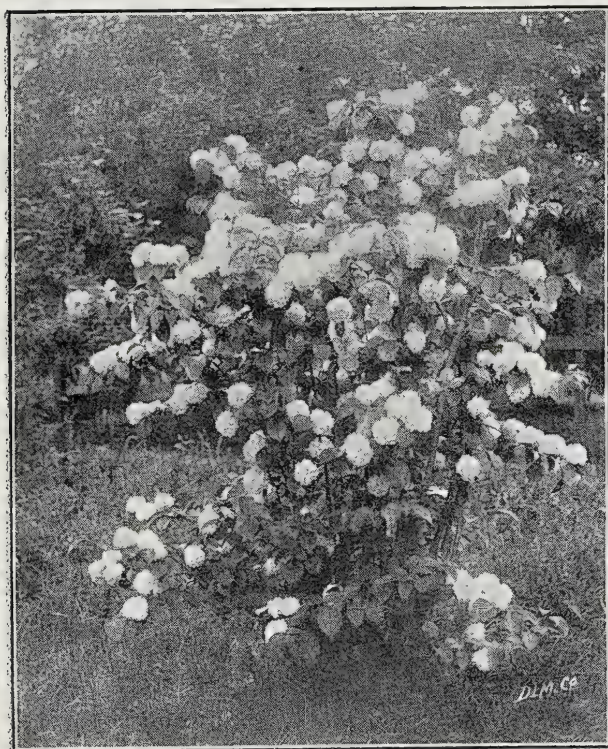

V. dentatum. Glossy, green leaves; white flowers that ripen into black berries. Bloom in May.

V. tomentosum. *Single Japan Snowball.* Fine shrub; beautiful, dark green leaves; white flowers in flat clusters. Foliage turns to gorgeous crimson in Autumn.

V. plicatum. One of the best of shrubs. Abundant blooms in May in the form of white balls; beautiful deep green leaves. The best of these varieties for a single specimen.

Prices of all varieties of Snowball:

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.50 " 4.00 "
4 to 5 feet.....	.75 " 6.00 "
5 to 6 feet.....	1.00 " 8.00 "
Tree or standard form, 3½ to 4 feet.....	.75c. each and up

Viburnum plicatum

We have a fine collection of flowering shrubs. Ask for our wholesale quotations.

Single Rose. *Rosa rugosa*. Try this variety

Hardy Garden Roses

We have selected only such kinds as have a real value and have proved worthy of warm commendation. Consequently, any one who desires a large collection would do well to leave the selection to us.

All plants are strong, 2 and 3 years old, field grown. We also supply pot-grown plants for Roses, late Spring and Summer delivery. When ordering Roses, please state if you will allow us to substitute, should kinds you need be sold out.

HYBRID PERPETUAL ROSES

The hardiest type; very persistent in bloom; specially adapted to garden use. Prices for any except where specially noted:

	Each	Per 10	Per 100
2 and 3 years.....	\$0.35	\$3.00	\$25.00

Anne de Diesbach. *Glory of France.* Carmine; large.

American Beauty. Rich rosy crimson; a superb Rose.

Baroness de Rothschild. Beautiful satiny pink; late bloomer.

Captain Christy. Delicate rose; very fine.

Frau Karl Druschki. Snow white; strong grower; very fine for cut flowers.

General Jacqueminot. *Jack Rose.* Brilliant crimson-scarlet; useful for all purposes.

Magna Charta. Bright pink, suffused with carmine.

Mme. Gabriel Luizet. Satiny pink; best early.

Mrs. John Laing. Delicate pink; large; full.

Mrs. Sharman Crawford. Rosy pink, white at base. Very fine.

Paul Neyron. Deep rose; large flowers.

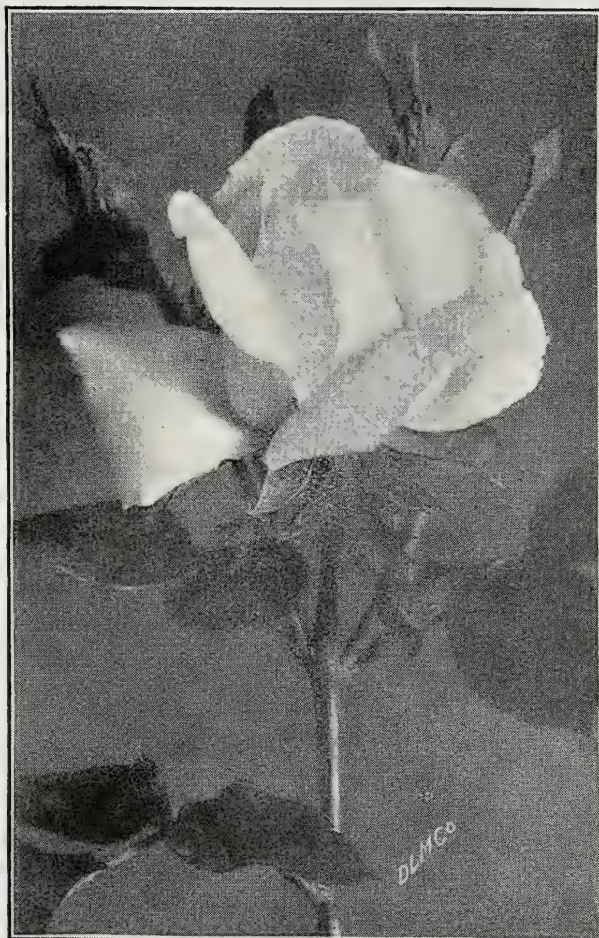

Ulrich Brunner. Bright cerise red.

Persian Yellow. Bright deep yellow.

Soleil d'Or. Deep yellow, shaded with orange; very fragrant.

A New Rose

Jonkheer J. L. Mock. A fine, new, dark red Rose; large flowers. 60c. each, \$5.00 per 10.

Rose Frau Karl Druschki

HARDY GARDEN ROSES

TEA AND HYBRID TEA ROSES

Hardy, but need a little protection in cold Winters; bloom monthly; require similar pruning.

40c. each, \$3.50 per 10, \$30.00 per 100.

Specimens, extra large plants, 6 to 8 feet.....	\$1.00 each	

Veilchenblau, or Blue Rambler.

2 years.....\$0.50 each

Ask our Landscape Department for plans for the beautifying of your grounds

Deciduous, Ornamental, Flowering and Shade Trees

We have a fine collection of trees growing in our Nurseries. We only keep in stock such kinds as possess distinctive decorative merit and are suitable for park, lawn, avenue and street plantings.

Deciduous trees can be safely planted in Spring after the frost has left the ground and before new growth has appeared; and also in Autumn, when the foliage and wood are ripe, until the ground freezes in Winter. Proper preparation of the ground before planting is necessary. The soil should be enriched, if necessary, with well-decayed manure. The hole to be dug at least 2 feet wider in diameter than the ball of roots, and the depth will be governed by the nursery soil line as indicated on the stem of the tree.

The roots should be spread out in the natural way, filling with fine soil and firmly pressing the soil down upon the roots; pour from one to three pails of water into the hole and let it settle well before planting, according to size of tree.

When you receive our trees they should be immediately unpacked and, if not yet ready for planting, heeled in, which means, make a trench, place trees in an upright position close together and cover thoroughly with fine soil, pressing down firmly so as to prevent roots from drying out.

Do not unpack trees in freezing weather. When trees arrive during severe weather place them in a cool place free from frost until perfectly thawed.

If deciduous trees or shrubs are miscarried or delayed in transit so as to become dried, they should be soaked in water for one or two days before planting.

ACER. Maple

These are more largely planted than any other trees. Hardy, vigorous, attractive growers; remarkably free from injurious insects. Adapted to almost any soil. With their cool, dense shade, they are indispensable in all lawns, park and avenue plantings. The brilliant coloring of the leaves gives a very fine effect in the Fall.

As the most rapid growers, we can recommend the Silver Maple and the Ash-leaved Maple; but for permanency, the popular Sugar and Norway Maples are to be preferred. The many other varieties are of more or less distinct types and more useful each in some specific place.

A. dasycarpum. *Silver Maple.* Reliable and rapid grower, and is sought for quick effects. Deep cut leaves with silvery under surface.

8 to 10 feet.....	\$1.00 each,	\$9.00 per 10
10 to 12 feet.....	1.50 "	12.50 "
12 to 14 feet, 2 to 2½ in. cal.	2.50 "	22.50 "
14 to 16 feet, 2½ in. cal.	3.50 "	32.50 "

A. Wieri laciniatum. *Wier's Cut-leaved Maple.* Leaves more deeply cut than the Silver Maple; rapid grower; slender branches which droop very gracefully. Fine lawn tree.

8 to 10 feet.....	\$1.00 each,	\$9.00 per 10
10 to 12 feet.....	1.50 "	12.50 "
12 to 14 feet.....	2.00 "	
Specimen, 2½ in. caliper and more,	\$4.00 and up.	

DECIDUOUS, ORNAMENTAL, FLOWERING AND SHADE TREES

**Acer platanoides.** Norway Maple

Acer Negundo. Ash-leaved Maple, or Box Elder. Rapid grower; irregular spreading form; resembles the Ash. Grows well in dry, barren soil.

8 to 10 feet.....\$1.00 each, \$9.00 per 10
10 to 12 feet..... 1.50 " 12.00 "

A. platanoides. Norway Maple. Compact habit; spreading, rounded form; dark green foliage; gives cool shade. One of the best ornamental trees. Popular for lawn, park and street planting, etc.

	Each	Per 10
8 to 10 ft., about 1 in. cal.....	\$1.00	8.00
10 to 12 ft., 1½ to 1¾ in. cal.....	1.50	12.50

2½ to 3 in. cal., about 16 ft..	\$3.50 to \$4.00 each	
3 to 4 in. cal., about 18 ft..	\$6.00 each and up	

Special prices on large quantities for avenue planting, etc.; we supply these at wholesale rates. Ask for quotations.

A. Schwedleri. Purple Norway Maple. New leaves in Spring are reddish purple color; also the young shoots, changing to a fine purplish green in Summer.

8 to 10 feet.....\$1.50 each, \$12.50 per 10
10 to 12 feet..... 2.00 " 17.50 "
12 to 14 feet.....\$3.00 each and up

A. Pseudo-platanus. Sycamore Maple. Handsome, broad tree; quick grower; dark leaves. Fine for seashore planting; also as a lawn tree.

8 to 10 feet.....\$2.00 each, \$17.50 per 10
10 to 12 feet..... 2.50 " 22.50 "
12 to 14 feet.....\$3.50 each and up

A. saccharinum. Sugar or Rock Maple. Vigorous grower; more or less pyramidal form; magnificent coloring in the Fall. Excellent in group planting, especially for avenues.

8 to 10 feet.....\$1.00 each, \$9.00 per 10
10 to 12 feet..... 1.50 " 12.50 "
12 to 14 feet..... 2.00 " 17.50 "
14 to 16 ft., 2 to 2½ in. cal..\$3.00 each and up
16 to 18 ft., 3 to 4 in. cal.. 5.00 each and up

JAPANESE MAPLES

Beautiful little trees which represent the highest development of complex beauty. Their foliage is fine cut and serrated, and runs from green to blood-red and bright gold. When artistically planted they produce a charming and beautiful effect. They are adapted for specimens and grouping; or for lawns, in front of Evergreen borders and for color effect in groups, etc.; specially effective when planted in foreground of taller shrubbery. Our collection has been selected from the finest and most distinct varieties. They are hardy, but not quite, in the coldest of the United States.

A. polymorphum. Green Japan Maple. The parent of all the following varieties. Tall and hardy; small green leaves, not deeply cut; bright green foliage in Spring and Summer; sometimes scarlet and yellow shades combined in Fall.

A. atropurpureum. Blood-leaved Japanese Maple. Blood-leaved; holds its dark coloring throughout the season.

A. atropurpureum dissectum. Cut-leaved Japan Maple. Low, spreading habit; blood-red leaves deeply cut as ferns.

A. aureum Japonica. Golden-leaved Japan Maple. Dwarf, spreading form; cut foliage.

A. aureum dissectum Japonica. Golden Japan Cut-leaved Maple.

Prices of all Japan Maples:

15 to 20 inches.....	\$1.00 each, \$9.00 per 10
20 to 30 inches.....	2.00 " 17.50 "
2½ to 3 feet.....	3.50 " 32.50 "
3 to 4 feet.....	4.50 " 42.50 "
4 to 5 feet.....	6.25 " 60.00 "

Plants in pots and tubs: We will not have these always in stock, but we will supply them at following prices:

15 to 20 in.	in pots.	\$1.25 each, \$10.00 per 10
20 to 30 in.	" "	2.50 " 22.50 "
2½ to 3 ft.	" "	4.00 " 37.50 "
3 to 4 ft.	" tubs.	5.00 " 47.00 "
4 to 5 ft.	" "	7.00 " 65.00 "

**Acer saccharinum.** Sugar, or Rock Maple

DECIDUOUS, ORNAMENTAL, FLOWERING AND SHADE TREES

AESCULUS. Horse-Chestnut

A. Hippocastanum. *White-flowering Horse-Chestnut.* Ornamental trees for lawns and avenues, flowering in May with a large quantity of beautiful white flower spikes; deep green foliage.

A. Hippocastanum fl. pl. *Double White flowering Horse-Chestnut.* White flowers; bears no fruit; very double.

8 to 10 feet.....	\$1.75 each, \$15.00 per 10
10 to 12 feet.....	2.25 " 20.00 "
12 to 14 feet.....	3.75 " "

A. Hippocastanum rubra. *Red-flowering Horse-Chestnut.* Flowers red; a little later in bloom than the white varieties; trees scarce.

6 to 8 feet.....	\$2.00 each, \$17.50 per 10
8 to 10 feet.....	2.50 " "
10 to 12 feet.....	4.00 " "

AILANTHUS Glandulosa
Japanese Varnish Tree

A small attractive tree. Panicles of yellow flowers in July. Nice lawn tree.

5 to 6 feet.....	\$1.00 each, \$9.00 per 10
6 to 8 feet.....	1.50 " 13.00 "

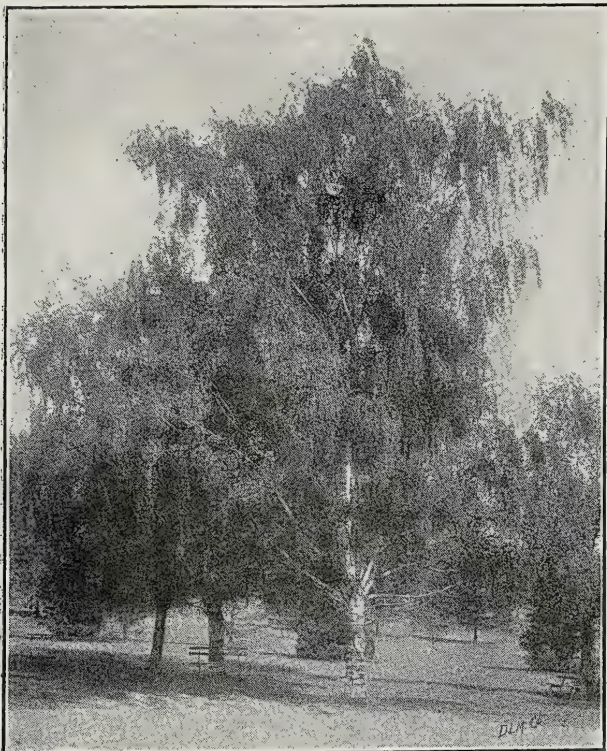

BETULA. Birch

Distinguished for their elegant and graceful appearance. Light foliage; some species have silvery white bark. Thrive in almost any location or climatic conditions.

B. alba. *European White Birch.* Quick grower; bark silver white.

8 to 10 feet.....	\$1.50 each, \$12.50 per 10
10 to 12 feet.....	2.00 " "
12 to 16 feet.....	3.00 " "

B. alba pendula dissecta. *Weeping Cut-leaved White Birch.* Very graceful drooping branches;

Betula alba pendula dissecta.
Weeping Cut-leaved White Birch

Catalpa Bungei

silvery white bark; deeply cut foliage. Very fine for lawn specimen.

8 to 10 feet.....	\$1.50 each, \$12.50 per 10
10 to 12 feet.....	2.25 " 20.00 "

B. lutea. *Yellow Birch.* Rapid grower; yellow gray bark.

6 to 8 feet.....	\$1.00 each, \$9.00 per 10
8 to 10 feet.....	1.50 " 12.50 "

B. papyracea. *Canoe, or Paper Birch.* Tall grower; handsome tree; large leaves; silver white bark.

6 to 8 feet.....	\$1.00 each, \$9.00 per 10
8 to 10 feet.....	1.50 " 12.50 "

B. alba Americana. *American White Birch.* Medium sized tree; smooth white bark; very fine.

6 to 8 feet.....	\$1.00 each, \$9.00 per 10
8 to 10 feet.....	2.00 " 17.50 "

CATALPA

Effective lawn trees; showy flowers in June and July; large, glossy, heart-shaped leaves. Rapid growers; give quick results in plantations.

C. Bungei. Dwarf tree, globular head 8 to 10 feet in diameter; very effective for lawns, terraces, etc.; hardy.

Tree form:

2-year heads.....	\$1.50 to \$2.00 each
3-year heads.....	2.00 to 4.00 "

We have some fine specimens, 4-, 5- and 6-foot stems, with 4- and 5-year-old heads, which we quote at \$3.00 to \$10.00 each, according to tree.

C. speciosa. *Western Catalpa.* Effective lawn tree; very fragrant blossoms of purple and white; pyramidal; clusters of flowers in June.

8 to 10 feet.....	\$1.25 each, \$11.00 per 10
10 to 12 feet.....	1.75 " 15.00 "
12 to 14 feet.....	2.75 " "

14 to 16 feet, specimen....	\$4.00 to \$6.00 each
-----------------------------	-----------------------

Cornus florida. White Dogwood

CERASUS. Cherry

In early Summer they bloom with a wealth of flowers all over their branches; dense foliage; the taller kinds, especially, make good shade trees.

C. pendula Japonica. *Japanese Weeping Cherry.* Beautiful lawn tree; does not grow so tall; can be used in very limited areas. The drooping branches are covered with pink flowers in May; good foliage through Summer.

2-yr. heads, about 4 to 5 ft. stems... \$2.00 each

C. alba fl. pl. Japonica. *Double White Japanese Cherry.* White blossoms.

C. rubra fl. pl. Japonica. *Double Pink Flowering Japanese Cherry.* Pink blossoms.

7 to 8 feet... \$1.50 each, \$13.00 per 10

CORNUS. Dogwood

See also Shrubs, page 18.

C. florida. *White Dogwood.* White petaled flowers in early Spring; deep crimson leaves in Autumn. Excellent in large groups, screens, etc.

5 to 6 feet... \$1.00 each, \$9.00 per 10

6 to 8 feet... 1.75 " 15.00 "

8 to 10 feet... 2.25 " (extra fine)

C. pendula. *Weeping Dogwood.* Weeping form of the above.

6 to 8 feet, specimens... \$1.00 to \$8.00 each

C. rubra. *Red, or Pink-flowering Dogwood.* Same as the white, but with beautiful pink flowers.

4 to 5 feet... \$2.00 each

5 to 6 feet... 3.00 "

FAGUS. Beech

Very attractive and ornamental trees for lawn or park planting, high screens, specimens, etc. Hardy trees.

F. Americana. *American Beech.* Compact, medium-sized tree; light-colored, smooth bark; glossy and attractive foliage.

3 to 4 feet... \$0.75 each, \$6.00 per 10

4 to 6 feet... 1.25 " 10.00 "

6 to 8 feet... 2.00 " 17.50 "

F. Europaea. *European Beech.* Dark green foliage and smaller leaves than the American Beech; compact, spreading specimens, suited for the lawn.

3 to 4 feet... \$0.80 each, \$6.00 per 10

4 to 5 feet... 1.00 " 8.00 "

5 to 6 feet... 1.25 " 11.00 "

6 to 8 feet... 1.75 " 15.00 "

8 to 10 feet... 3.00 "

Specimens, low branched and bushy:

8 to 10 feet... \$5.00 each

10 to 12 feet... 7.50 "

12 to 16 feet... \$10.00 to 15.00 "

F. sylvatica asplenifolia. *Cut-leaved Beech.* Elegant tree, fern-like foliage.

4 to 5 feet... \$3.00 each

5 to 6 feet... 4.00 "

F. pendula. *Weeping Beech.* Beautiful weeping tree.

4 to 6 feet... \$1.50 each

6 to 8 feet... 2.50 "

8 to 10 feet, specimen... 4.00 "

10 to 12 feet, specimen... \$6.00 to 8.00 "

DECIDUOUS, ORNAMENTAL, FLOWERING AND SHADE TREES

Fagus purpurea pendula. *Purple-leaved Weeping Beech.* As the preceding, but purple leaves. One of the most beautiful weeping trees.

6 to 8 feet.....	\$4.00 each
8 to 10 feet, specimen.....	6.00 "

Green Beeches

Beautiful hedge, 8 to 10 feet high. Plant in Spring only. Branched from the bottom.

	Per 10	Per 100
3 to 4 ft., plant 18 in. apart.....	\$7.00	\$55.00
4 to 5 ft., plant 24 in. apart.....	10.00	80.00
5 to 6 ft., plant 30 in. apart.....	16.00	140.00

FRAXINUS. Ash

Quick growers; handsome shade trees, which are not very expensive. Suitable for almost all landscape work, as lawns, avenues, etc.

F. alba Americana. *American White Ash.* Tall grower; dark green foliage; light silvery beneath.

7 to 8 feet.....	\$0.75 each, \$7.00 per 10
8 to 10 feet.....	1.25 " 11.00 "
10 to 12 feet.....	1.75 " 16.00 "

F. Europæa. *European Ash.* Taller and rounder than the American; dark, large leaves, remain till late in the Fall.

6 to 8 feet.....	\$0.75 each, \$7.00 per 10
8 to 10 feet.....	1.25 " 11.00 "
10 to 12 feet.....	2.00 " 10.00 "

F. pendula. *Weeping Ash.* Excellent when planted individually about the lawn.

8 to 10 feet, large heads.....\$3.50 each

F. floescens Europæa. *European Flowering Ash.* Ornamental tree about 25 to 30 feet high, with greenish white, fringe-like flowers in June.

6 to 8 feet.....	\$1.00 each, \$9.00 per 10
8 to 10 feet.....	1.50 " 13.00 "
10 to 12 feet.....	2.50 " 22.50 "

GINKGO (See *Salisburia*, p. 38)

GLEDITSCHIA. Locust

G. tricanthos. *Honey Locust.* Hardy tree; strong thorns; suitable for lawn planting, and, because of its thorns, for strong hedges.

G. acanthos. *Thornless Honey Locust.*

Prices of above two varieties:

3 to 4 feet.....	\$0.50 each, \$4.00 per 10
4 to 6 feet.....	.70 " 6.00 "
6 to 8 feet.....	1.00 " 9.00 "
8 to 10 feet.....	1.50 " 12.50 "
10 to 12 feet.....	2.50 " 23.00 "

HALESIA. Snowdrop Tree

Halesia. Leaves dark green above, pale below; fine white flowers resembling those of the Snowdrop, but larger.

8 to 10 feet, bushy.....	\$2.00 each
10 to 12 feet, bushy.....	3.00 "

Fagus pendula. Weeping Beech

DECIDUOUS, ORNAMENTAL, FLOWERING AND SHADE TREES

LIRIODENDRON. Tulip Tree

L. tulipifera. *Tulip Tree, or Tulip Poplar.* Native tree; rapid grower; broad, glossy leaves, light green; beautiful tulip-like flowers of a creamy yellow color, in June.

6 to 8 feet.....	\$1.00 each, \$9.00 per 10
8 to 10 feet.....	1.70 " 16.00 "
10 to 12 feet.....	\$2.00 to \$3.00 each
12 to 14 feet.....	3.00 to 5.00 "

MAGNOLIA

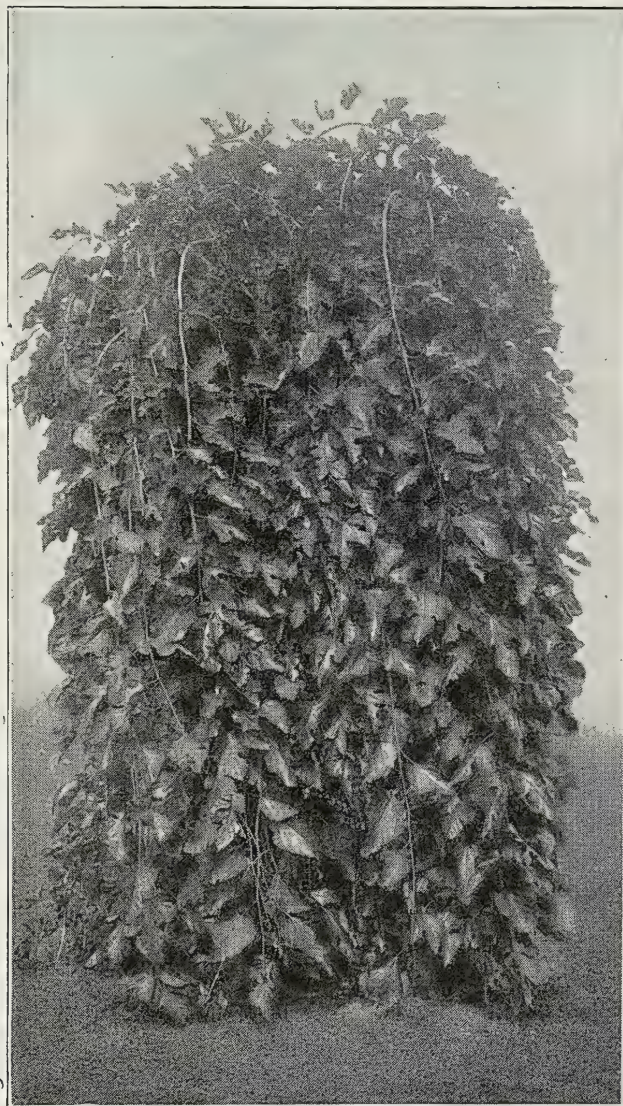

One of the best flowering trees. Requires a good soil, but likes best a rich, moderately moist soil. Excellent in groups; lawn specimen; fine against large Evergreens, etc. Spring planting preferred to insure best results.

M. acuminata. *Cucumber Tree.* Lawn or avenue tree; handsome foliage; yellow green flowers in June.

8 to 10 feet.....	\$2.00 each, \$10.50 per 10
-------------------	-----------------------------

M. tripetala. *Umbrella Tree.* Valuable lawn tree; very hardy; large white flowers in June; immense, bright, shiny leaves.

3 to 4 feet.....	\$0.75 each, \$6.00 per 10
4 to 6 feet.....	2.00 " 18.00 "

Morus pendula. Teas' Weeping Mulberry

M. alba superba. White.

2 to 3 feet.....	\$2.50 each, \$22.50 per 10
3 to 4 feet.....	3.00 each, 25.00 per 10

M. Alexandrina. Red and white; very large flowers.

3 to 4 feet.....	\$2.50 each, \$20.00 per 10
4 to 5 feet.....	3.50 " 32.50 "

M. amabilis. White; very fine.

3 to 4 feet.....	\$3.00 each, \$28.00 per 10
4 to 5 feet.....	3.50 " 32.50 "

M. Halleana stellata. Dwarf species; pure white, double flowers; very early to bloom.

1½ to 2 feet.....	\$2.00 each, \$17.50 per 10
2 to 2½ feet.....	2.50 " 22.50 "
2½ to 3 feet.....	3.00 " 27.50 "
3 to 4 feet.....	3.50 " 32.50 "

M. Lennei. Large foliage; cup shaped; crimson-purple flowers.

3 to 3½ feet.....	\$2.50 each, \$23.00 per 10
3½ to 4 feet.....	3.00 " 27.50 "
4 to 5 feet.....	3.50 " 32.50 "

M. Soulangeana. Largest of the Chinese varieties; white flowers, purple at the base of the petals. Blooms in profusion.

3 to 4 feet.....	\$2.50 each, \$22.50 per 10
4 to 5 feet.....	3.50 " 32.50 "
5 to 6 feet.....	4.00 " 37.50 "

M. Soulangeana nigra. Red.

2 to 3 feet.....	\$2.25 each
3 to 3½ feet.....	3.25 "
4 feet.....	4.50 "

M. speciosa. Smaller flowers than the Magnolia Soulangeana, but similar in color; blooms later.

3 to 4 feet.....	\$2.00 each, \$19.00 per 10
4 to 5 feet.....	3.25 " 30.00 "
6 to 7 feet.....	5.00 " 47.00 "

We make a specialty of Magnolias. Other varieties can be supplied and will be quoted on application.

MORUS. Mulberry

For fruiting varieties, see Fruit Trees, page 70.

M. pendula. *Teas' Weeping Mulberry.* Beautiful, hardy, ornamental tree; forms a perfect umbrella-shaped head with long branches drooping to the ground.

3 feet stems.....	\$1.00 each and up
5 to 7 feet, good heads.....	1.50 " "
6 to 7 feet, strong, 3-yr. head	2.50 " "
Specimens.....	\$4.00 to \$10.00 each

PERSICA. Peach

Little trees, covered with fragrant blossoms. Blooms in early Spring.

P. fl. pl. alba. *Double White Flowering Peach.*

P. fl. pl. rubra. *Double Red Flowering Peach.*

Price of above two varieties:

4 to 5 feet.....	.60c. each
------------------	------------

PRUNUS. Plum

P. domestica. *The Common Fruiting Plum.* (See page 68.)

P. triloba fl. pl. (See page 24.)

P. Pissardi. *Purple-flowering Plum.* (See page 24.)

DECIDUOUS, ORNAMENTAL, FLOWERING AND
SHADE TREES**POPULUS. Poplar**

Fast growers; give quick effect and are cheap; thrive in almost any soil, and withstand well the smoke and gases of the cities. Excellent for high screens, or where quick shade is desired.

P. alba. *White or Silver-leaved Poplar.* Foliage white and very downy beneath.

6 to 8 feet.....\$0.75 each, \$6.00 per 10
8 to 10 feet..... 1.00 " 9.00 "

P. balsamea. *Balsam Poplar.* Delightful odor to the buds; very rapid growers.

6 to 8 feet.....\$0.75 each, \$6.00 per 10
8 to 10 feet..... 1.25 " 11.00 "

P. monilifera. *Carolina Poplar.* The heart-shaped leaves are glossy and fresh looking; distinctive habit of growth, forming a pyramidal head; rapid grower. Valuable for screening.

About 30 feet.....	\$5.00 to \$8.00 each		

Ask for special prices on Lombardy and Carolina Poplars in large quantities.

Pyrus. Flowering Crab

Populus fastigiata. Lombardy Poplar

PYRUS. Flowering Crab

Hardy; small trees; bloom in Spring with double, fragrant flowers, pink or rosy red. Attractive when planted as specimens on the lawn. The best are:

P. angustifolia. *Bechtel's Double-flowering Crab.* Delicate pink flowers.

P. Parkmani. *Parkman's Double-flowering Crab.* Similar to above, but flowers are more rosy white.

P. spectabilis *Chinese Double-flowering Crab.* White flowers, coral red when in bud.

4 to 5 feet.....		 1.25 "
5 to 6 feet.....		varieties 1.50 "

DECIDUOUS, ORNAMENTAL, FLOWERING AND SHADE TREES

Quercus palustris. Pin Oak

QUERCUS. Oak

Very hardy trees. They are able to withstand the dryness of hillsides, the influence of seashores, and all varieties of climate. Very desirable as shade trees for lawns, parks, avenues, etc. Brilliant autumnal coloring to the foliage of most of the different kinds. We carry a large stock of Oaks frequently transplanted, which are, therefore, not difficult to establish.

Q. alba. White Oak. A grand old native tree; broad, spreading habit.

8 to 10 feet.....	\$1.50 each,	\$12.50 per 10	
10 to 12 feet.....	2.50 "	22.50 "	
12 to 14 feet.....	4.50 "	40.00 "	
14 to 16 feet.....	6.00 "	50.00 "	

Specimens, 16 to 20 feet, 3½ to 4 and 5 in. diameter, \$8.00 each and upward.

Q. coccinea. Scarlet Oak. Bright red foliage in Fall.

4 to 6 feet.....	\$1.00 each,	\$9.00 per 10	
6 to 8 feet.....	1.50 "	13.00 "	
8 to 10 feet.....	2.50 "	22.50 "	

Q. palustris. Pin Oak. A superb tree; graceful, drooping branches; bright green foliage; deep red in Autumn. Excellent lawn or avenue tree.

	Each	Per 10	Per 100
6 to 8 feet.....	\$1.00	\$9.00	\$80.00
8 to 10 feet.....	1.50	13.50	125.00
10 to 12 feet.....	2.00	18.00	
12 to 14 feet.....	3.50	33.00	

Specimens, 16 to 20 feet, 2½ to 3-inch caliper, \$4.00 each and upward.

Large specimens, 20 to 24 feet, 3- to 4-inch caliper, \$6.00 each and upward.

Q. Robur. English Oak. A stout, spreading tree; vigorous grower; stately.

6 to 8 feet.....	\$1.00 each,	\$9.00 per 10	
8 to 10 feet.....	2.00 "	18.00 "	
10 to 12 feet.....	3.00 "	27.50 "	

Q. fastigiata pyramidalis. Pyramidal Oak.

4 to 6 feet.....	\$2.00 each		
6 to 8 feet.....	3.00 "		

Q. rubra. Red Oak. Beautiful tree; rapid grower, making large specimen; broad, round heads.

	Each	Per 10	Per 100
6 to 8 feet.....	\$1.00	\$9.00	\$80.00
8 to 10 feet.....	1.50	13.00	125.00
10 to 12 feet.....	2.00	17.50

14 to 16 feet, 2½ to 3 in. caliper.....	\$7.00 each and upward		

Tilia argentea. Silver or White Linden

T. Europæa. *European Linden.* Fine, large, pyramidal tree; plentiful foliage, forming a dense shade. Very fragrant when in bloom.

	Each	Per 10	Per 100
6 to 8 feet.....	\$0.75	\$6.00	\$50.00
8 to 10 feet.....	1.50	12.50	110.00
10 to 12 feet.....	2.00	17.50	160.00
12 to 14 feet.....	3.00	28.00	250.00
14 to 16 feet.....	4.00	37.00	

Specimens

We have a fine stock of large specimen European Linden, which have fully developed their beauty. 20 to 25 feet, 4 to 5 inches caliper, \$5.00 and upward.

Trained Linden

These are specially trained for forming arches, natural pergolas, arches for gateways, and formal garden effects. One of the prominent features of European estates. Require no extra skill to keep in shape. Fine, well-shaped ornamental imported plants.

10 to 12 feet.....\$7.00 to \$10.00 each
Larger size.....10.00 to 15.00 "

ULMUS. Elm

A popular tree, of massive proportions; long-lived; branches spreading and generally curved into graceful quarter circular shape with tips somewhat drooping, supporting a drooping dense foliage; open heads, so that electric wires do not injure them; very desirable for street trees. Extensively used for wide lawns, parks, streets, avenues, etc.

U. Americana. *American Elm.* The well-known tree, much in use in New England streets; grows everywhere; rapid grower.

	Each	Per 10	Per 100
6 to 8 feet.....	\$1.00	\$8.00	\$70.00
8 to 10 feet.....	1.50	12.50	110.00

12 to 14 feet.....	3.50	32.50	
14 to 16 feet.....	5.00	45.00	

Specimens, 16 to 20 feet, 3 to 4 inches caliper, \$6.00 to \$10.00 each.

U. campestris. *English Elm.* A tall growing, spreading tree, of compact habit; the leaves remain green several weeks longer than the American Elm.

	Each	Per 10	Per 100
6 to 8 feet.....	\$1.00	\$9.00	\$80.00
8 to 10 feet.....	1.50	13.00	125.00
10 to 12 feet.....	2.00	17.50	
12 to 14 feet.....	4.00	37.50	

Specimens, 15 to 20 feet, \$6.00 and upward.

U. latifolia campestris. *Broad-leaved English Elm.* Same price as preceding variety.

U. Americana pendula. *Camperdown, or Weeping Elm.* The branches grow outward and downward in interesting forms. Beautiful trees as specimens on lawns.

7 to 8 feet stems, good, 3-year heads, \$3.50 each.

8 feet stems, strong, 5-year heads, \$5.00 each and upward.

Specimens, 12 to 14 feet tall, stems, 4 to 5 inches caliper, with fine large heads, about 9 to 10 years old, \$7.50 each and upward.

Hardy Vines and Climbers

AMPELOPSIS

A. quinquefolia. *Virginia Creeper.* Excellent for porches, buildings, banks, etc.; grows anywhere.

	Each	Per 10	Per 100
1 foot, 1 year.....	\$0.20	\$1.50	\$13.00
2 feet, fine plants.....	.50	4.00	

A. Veitchii. *Boston Ivy.* Often seen on churches. Needs shady position.

Strong plants, \$0.25 each, \$2.00 per 10.

Strong plants, .40 " 3.50 "

ARISTOLOCHIA. Dutchman's Pipe

A. Siph. *Dutchman's Pipe.* The very large, green leaves cover trellis or arbor completely. Will stand half shady position.

\$0.50 each, \$4.00 per 10

Extra fine plants..... 1.00 "

CLEMATIS

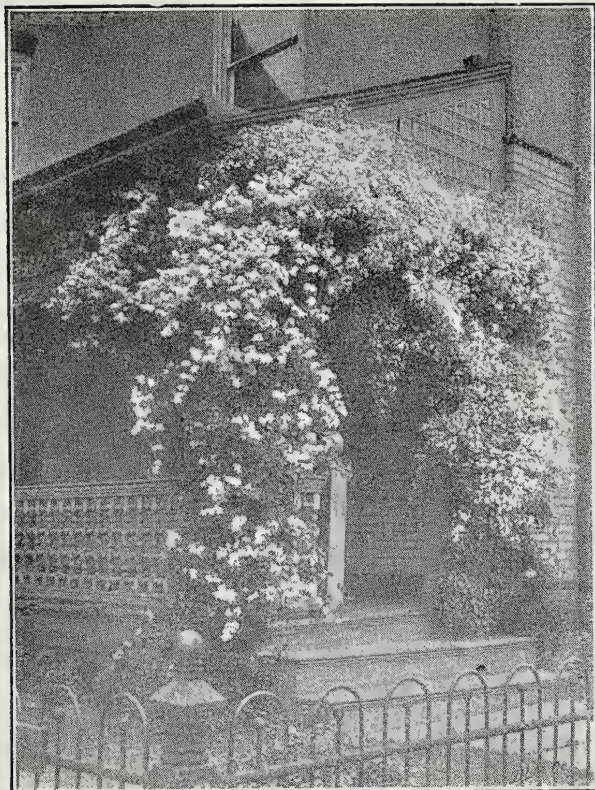

C. paniculata. Produces a perfect sheet of small white flowers from the latter part of August until September. Needs a sunny position.

1 foot, 2 years..... \$0.30 each, \$2.50 per 10

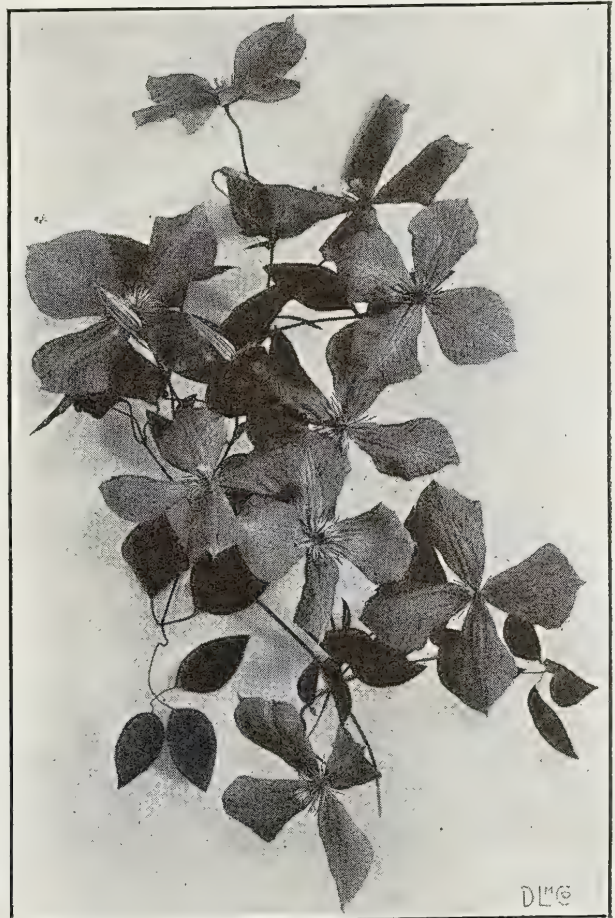

1 to 2 feet, 3 years,
very strong..... .35 " 3.00 "

Very heavy clumps
with ball..... .75 " 7.00 "

C. Jackmanni. Large, rich, dark purple flowers, 2 inches across, in June. Needs a sunny position.
50c. each, \$4.00 per 10.

Clematis paniculata

Clematis Jackmanni

C. Ville de Lyon. Bright red.

50c. each, \$4.00 per 10.

Prices of all Clematis Hybrids:

50c. each, \$4.00 per 10, \$26.00 per 100.

C. Henryi. Large, pure white flowers, 2 inches across, in June. Needs a sunny position.

50c. each, \$4.00 per 10.

ENGLISH IVY (See Hedera)

EUONYMUS

E. radicans. A beautiful Evergreen species with small leaves. Sticks tightly to walls and brick. Excellent as a ground cover and border. Likes sunny as well as shady position.

1 foot.....\$0.25 each, \$2.00 per 10
1½ to 2 feet..... .35 " 3.00 "

E. radicans variegata. Of the same habit as the above, but with variegated leaves. Prices as the preceding.

HEDERA. Ivy

H. Helix. *English Ivy.* Evergreen climber with rich green leaves. Needs plenty of shade.

30c. each, \$2.50 per 10.

HARDY VINES AND CLIMBERS

LONICERA. Honeysuckle

L. Halliana. *Hall's Honeysuckle.* The best of all Honeysuckles, fragrant, creamy white flowers all Summer. Likes half shady position.

1 year, 1½ feet.....	\$0.20 each, \$1.50 per 10
2 years, 2½ to 3 feet... .25 "	2.00 "
3 years, strong plants... .40 "	3.50 "
4 to 5 feet, very heavy clumps with balls... .75 "	7.00 "

L. brachypoda aurea. *Japanese Golden Honeysuckle.* Leaves variegated; flowers creamy white. Likes half shady position. Prices as the preceding.

L. Caprifolium. *Italian Honeysuckle.* Flowers very fine, yellowish white inside and purplish outside.

2 to 3 feet.....	\$0.35 each, \$3.00 per 10
3 to 4 feet.....	.60 " 5.00 "

SCHIZOPHRAGMA. Climbing Hydrangea

S. hydrangeiodes. *Climbing Hydrangea.* One of the most beautiful climbers. In Midsummer the whole trellis is completely covered with large, flat white flowers. Will stand half shady position and is perfectly hardy.

1½ to 2 feet.....	\$0.50 each, \$4.50 per 10
2 to 3 ft., very strong... .75 "	7.00 "

TECOMA. Trumpet Vine

T. radicans. *Trumpet Vine.* Very fast grower with deep scarlet trumpet-like flowers in August. Needs sunny position.

2 years.....	\$0.35 each, \$2.50 per 10
3 years, very strong potted plants... .50 "	4.00 "

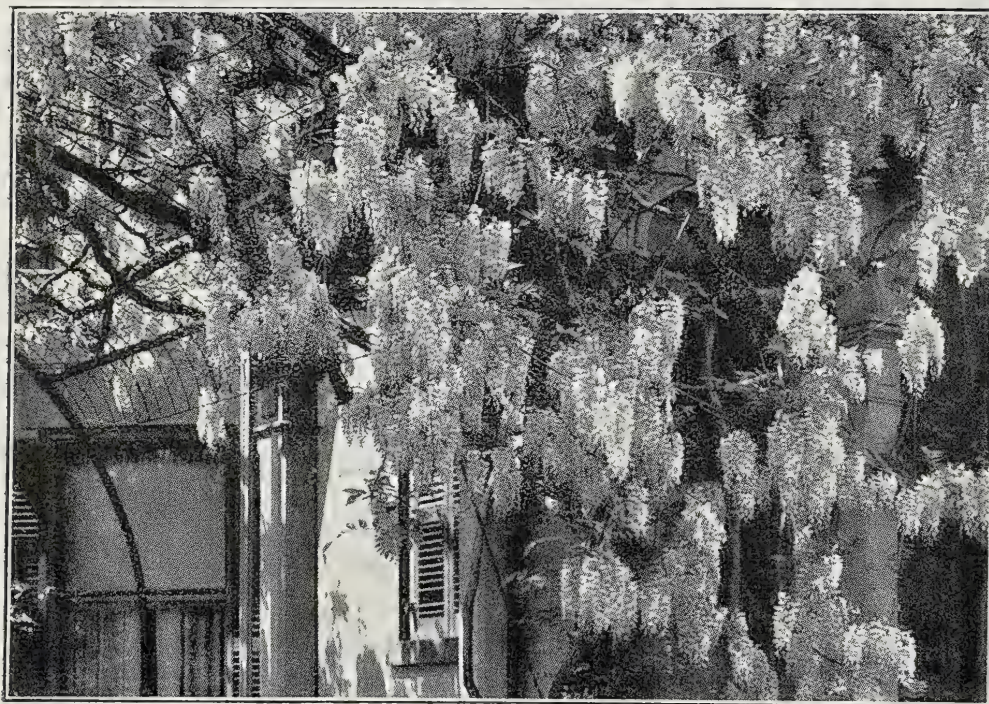

Lonicera. Honeysuckle

WISTARIA

W. Sinensis. *Chinese Wistaria.* Large, drooping clusters of pale blue fragrant flowers in May. Needs a sunny position.

3 years, 2 to 3 feet....	\$0.50 each, \$4.00 per 10
3 to 4 feet.....	.75 " 7.00 "
4 to 5 feet.....	1.25 " 10.00 "

Wistaria Sinensis

Hedge Plants

Rosa Rugosa. See page 44

ALTHAEA. Rose of Sharon

Makes a beautiful hedge. Can be trimmed to any height. Flowers profuse from Mid-August to October.

2 to 3 ft., plant 2 ft. apart; mixed double red and double white with red center.....	Per 10	Per 100
3 to 4 ft.....	\$2.75	\$25.00
18 to 24 in. blue, purple, white, red, pink, all double blooming, fine, heavy plants; plant 1 ft. apart.....	3.75	30.00

Either kind.	\$2.50	\$20.00

For unnamed varieties of Evergreens, sometimes used for hedging, ask for special quotations.

Euonymus radicans

How do you like a perennial and shrub border in your garden, and a profusion of flowers from early Spring until late Fall?

PERENNIALS

Unless you have a perennial garden or border of your own, you cannot fully appreciate the joys and charms associated with such a garden spot. The finest and rarest cut flowers in abundance at any time.

The Hardy Perennial Garden and Border. The annual beds are rapidly changing into plantings of Hardy Perennials, Evergreens and Flowering Shrubs.

The Hardy Herbaceous Garden will naturally interest and inspire everybody who goes into it.

What Does Such a Garden Afford? Just think of the fascination there is in watching the natural succession of quantities of flowers in the greatest diversity from April until frost. Every day you may gather armfuls of the most gorgeous cut flowers.

When ordering care should be taken to select such a collection as will furnish a continuance of bloom the entire season.

When requested, we will select suitable varieties and give estimates for laying out and planting of perennial borders and beds, and will be glad to correspond with all interested parties.

Care. Very little is needed; fairly good soil to begin with and a little enriching and cultivation to eradicate the weeds; cutting down the old dead tops, and a slight covering in Winter with leaves or some manure will be sufficient.

For the convenience of our customers we indicate approximately the height in inches and feet, and also the flowering months.

The Hardy Perennial Plants. Our assortment of Hardy Perennials is one of the finest in the country. We have aimed, by keeping constantly in touch with the foremost plant breeders in Europe, to offer the best and most useful novelties, and such that are positively hardy.

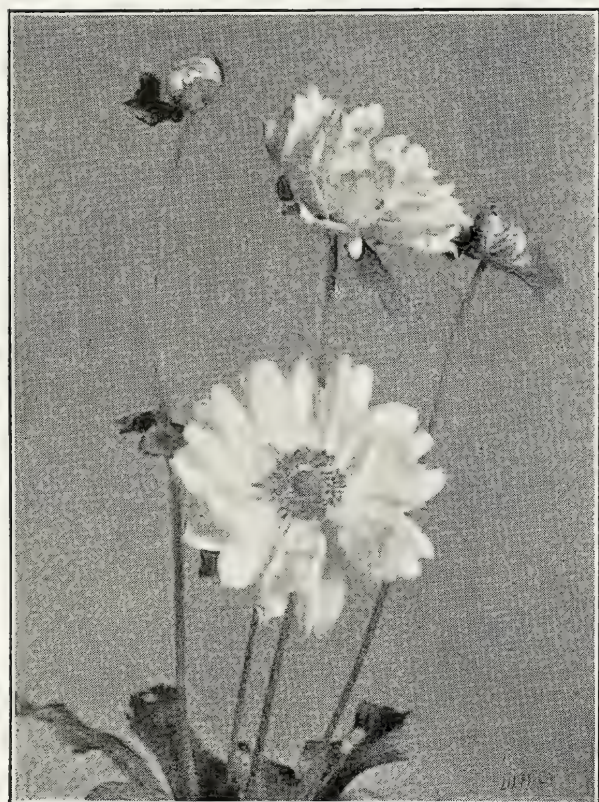

All Orders will be attended to most carefully.

Not less than five plants of the same variety at ten rates.

PERENNIALS

Asters. See page 47

Anemone. Wind Flower

ANEMONE. Wind Flower

Just when the first Fall days overtake us the beautiful Anemones, in their various colors, make a grand display. They prefer a half shady position, and need the protection of well rotted leaves or manure during the Winter.

MYOSOTIS. Forget-Me-Not

M. palustris. $\frac{1}{2}$ foot. Blue. May and June.
15c. each, \$1.25 per 10

OENOTHERA. Evening Primrose

O. Youngi. Bright yellow. $1\frac{1}{2}$ feet. Yellow. June and July.
15c. each, \$1.25 per 10

PERENNIALS

Papaver. Poppy

PAEONIA

See pages 59 to 61.

- P. speciosa.** Large, beautiful white flowers. 1½ feet. White. August and September.
15c. each, \$1.25 per 10

PAPAVER. Poppy

Papaver Orientale Hybrids (Hybrid Oriental Poppies)

The hardy scarlet Oriental Poppy is well known, but these beautiful hybrids are a grand surprise to the majority of people. A bed of these brilliant colors of the darkest red, white, pink, mahogany, etc., is beyond imagination. The enormous flower stems grow 3 to 3½ feet high; they bloom profusely in June. Our Poppies will live and flourish. We know how to grow them.

- P. Blush Queen.** Beautiful soft rose.
25c. each, \$2.25 per 10
- P. Goliath (New).** The largest Poppy grown; enormous scarlet flowers on 3½-foot stems.
25c. each, \$2.25 per 10
- P. Mahogany (New).** The darkest colored Poppy in cultivation; of the darkest carmine purple imaginable; the nearest to mahogany ever seen in any other flower. A striking acquisition.
30c. each, \$2.50 per 10

- P. orientalis.** The well-known Oriental Poppy, with crimson scarlet flowers.
15c. each, \$1.25 per 10

- P. Salmon Queen.** A beautiful salmon red.
25c. each, \$2.25 per 10

- P. Silver Queen.** Flowers of a soft flesh color, nearly white, with silvery tint. Extraordinarily floriferous.
40c. each, \$3.50 per 10

- P. nudicaule. Iceland Poppy.** These beautiful Poppies take everybody's fancy because of their bright, dazzling colors of clear yellow, orange and white. They are biennials and last from 2 to 3 years. About 1 foot. June—August.
15c. each, \$1.25 per 10

PENTSTEMON. Beard-Tongue

- P. barbatus Torreyi.** Stately spikes of brilliant scarlet flowers. 3 to 4 feet. Scarlet. June and July.
15c. each, \$1.25 per 10

- P. diffusus.** Showy spikes of purple flowers. 1½ feet. Purple. June and July.
15c. each, \$1.25 per 10

CHOICE HARDY PHLOX

These gorgeous Phloxes in all their brilliant colors brighten up any dull spot in the garden. In massing, plant all of one color together. We offer a splendid collection of the choicest varieties.

Price: Except when otherwise specified,
15c. each, \$1.25 per 10, \$10.00 per 100.

- P. Coquelicot.** Very bright scarlet. One of the best.
- P. Athis.** Fine tall spikes of brilliant pink flowers; large flower heads.
- P. la Soleil.** Brilliant China Rose; large, close heads.
- P. Eclairer.** Rich violet crimson; close flower heads.
- P. Champs Elysees.** Crimson purple; close flower heads.
- P. Josephine Gerbeaux.** Pure white with brilliant carmine center.
- P. Boule de Feu.** Fine red, with carmine eye.
- P. Jeanne D'Arc.** Snow white. Very effective when planted with Boule de Feu.
- P. Jean Barth.** Clear pink, cherry red center.
- P. Iris.** Very large, perfect flowers; blush pink, large carmine center. Very fine.
- P. Independence.** The best pure white; close flower head.
- P. Madame P. Langier.** Carmine. Very dark flower.
- P. Sunshine.** Salmon pink, dark rose center.
- P. General Giovanelli.** Rose.
- P. Boule de Neige.** White.
- P. Peachblow.** Delicate pink.
- P. Beranger.** Very soft rose.
- P. Etna.** Deep orange scarlet with dark crimson eye.

Fine 3-year-old plants... .35 " 2.75 "

Grand Double Peonies

PEONY LIST, 1912

In this Catalogue the Sunnyfield Nursery Company begs to present its Peony list for the year 1912 and forward. It contains, we believe, not only a large assortment, but also all the best varieties to be found on the modern market, whether single or double, herbaceous or tree.

The list is arranged on a color scheme. Each sort begins with the pure white varieties followed by tints to shades of pink, concluding with reds, running from light to darkest.

We give a brief list according to the time of blooming:

EARLY.—*Paeonias officinalis* (see page 61) are the earliest of all, blooming two weeks earlier than other sorts. Tree Peonies (see page 61) bloom early in May, preceding the herbaceous. The earliest herbaceous single is *Tenuifolia*; early herbaceous doubles are *Festiva maxima*, *Golden Harvest*, *Achille*, *L'Esperance* and *Marie Lemoine*.

MIDSEASON.—*Alba sulphurea*, *Queen Victoria*, *Mont Blanc*, *Candidissima*, *Pulcherrima*, *Beaute Francaise*, *Golden Harvest*, *Jeanne D'Arc*, *Rosea elegans*, *Lohengrin*, *Rubens*, *Rosea grandiflora*, *La Tulipe*, *Anemone flora rubra*, *Rubra triumphans*, and *Souvenir de L'Exposition Universelle*.

LATE.—*Comte de Paris*, *Edulis superba*, *Mons. Paillet*, *Ne Plus Ultra*, *Victor Lemoine*, *Rosea superba*, *Louis Van Houttei*, *Andre Lauries*, *Humei*, *Plenissima rosea superba*, *Cardinal Richelieu*, *Gloire de L'Exposition Universelle*, *L'Indispensable* and *Grandiflora rubra*.

ORCHIDS

If you are interested in these most beautiful and curious plants, send us a list of your requirements. We can supply all the leading varieties at reasonable figures and shall be pleased to quote prices on application.

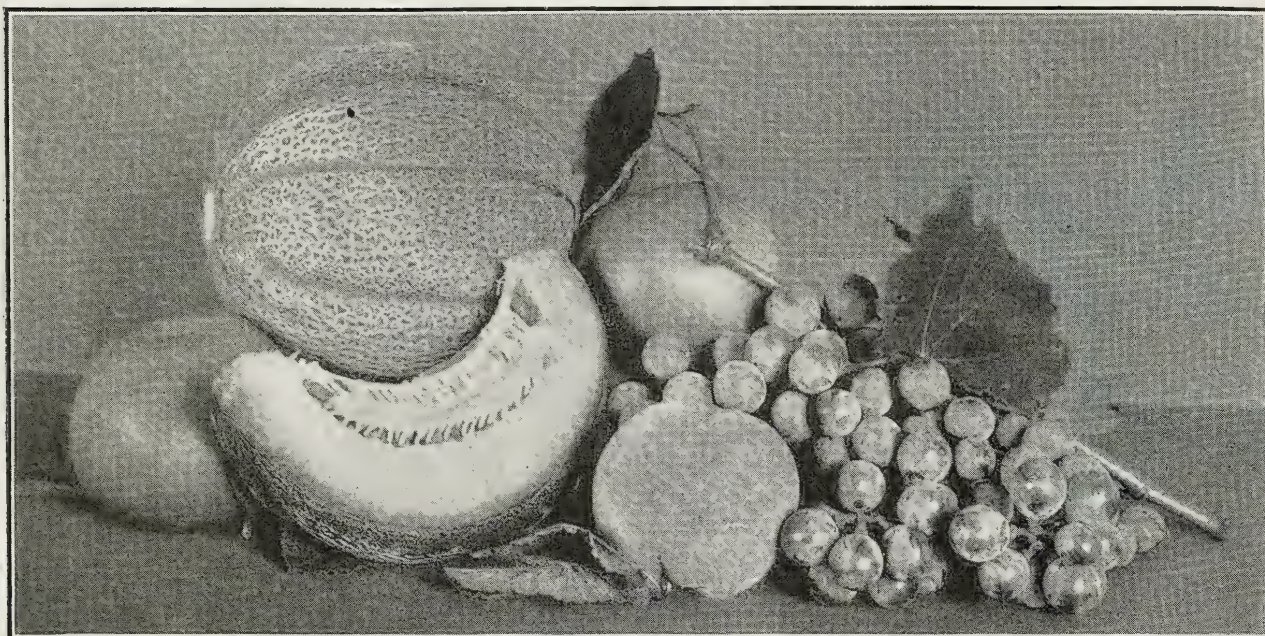

DECORATIVE FLOWERING AND
BEDDING PLANTS

Although we are nurserymen and at the present not extensively engaged in florists' business, we are able to supply all the fine decorative and flowering plants for conservatory, piazza, house and lawn decoration. We shall be glad to receive customers' want lists and give estimates for filling conservatories, greenhouses, etc.

Fruit Department

WHOLESALE

To parties planting orchards, or to those desiring fruit trees in large quantities, we sell good stock at reasonable rates. In wholesale dealings we dispose of not less than 25 trees in a block, and in the composition of a block, not less than 5 trees of one variety. Send for special fruit list and prices for wholesaling.

HINTS FOR PLANTING AND CARE

Planting

Ground should be rich and moderately dry; if not so, it should be made so. Lands exhausted by cropping need plenty of good, well-decomposed manure.

Care should be taken to plant at the right depth; too deep planting generally causes the death of the tree and in any case retards the growth; too shallow planting is often as fatal.

Dig the holes deep and wide; if too large fill in well-pulverized soil. Never bunch or twist roots to crowd them into too small a hole. If weather is dry fill the hole with water and let it nearly all be absorbed before putting in the tree. See that the earth is firmly pressed down over the roots. It is well to nearly cover in planting, then pour on water to settle soil evenly and closely around the roots; let stand a while and then finish the soil covering.

Pruning and Care

Home-grown orchard trees are generally allowed to grow to standard form—naked stems, and a number of branches at the top forming a head.

Apples, Pears, Peaches, Cherries and other standard trees should be cut back, leaving only four buds from the base. Sod should not be allowed to grow tight in around the base of the trunk; every Spring and Fall dig away, to a depth of 3 to 5 inches, the soil around the base of the trunk. Find borer holes, if any; probe with a sharp-pointed, pliant wire till the grubs are killed, plug and replace soil. Prune often, removing crowding as well as dead limbs. Spray frequently. Follow these directions and you will be sure to have healthy growth, and abundant as well as fine fruit.

Peach trees, on planting, should be cut away one third, and the side branches to one bud. In all cases, examine the roots and remove any parts that are damaged.

Dwarf Fruit Trees

Cut the leader to one half; the lower branches one half; the next branches a little shorter, and so on till the upper ones have only one or two buds; this will bring the trees to pyramidal growth.

Trained Fruit Trees

These are already well pruned in the nurseries. They will require very little pruning the first year. They should, however, be pruned to the flowering wood, annually thereafter.

FRUIT TREE PRICE LIST. Retail

The best only: we do not sell inferior grades.

Ask for wholesale circular on quantities exceeding 25 in number.

FRUIT DEPARTMENT

STANDARD APPLE TREES

5 to 6 feet.....\$0.50 each, \$4.50 per 10
6 to 7 feet......65 " 6.00 "
7 to 8 ft. 75c. to \$1.50 each; \$6.75 to \$13.50 per 10

Wholesale circular gives 66 varieties, graded as to season and priced from 3 feet to 7 feet tall.

EARLY SUMMER: Carolina Red (June); Early Harvest, pale yellow (August); Fourth of July.

LATE SUMMER: Sweet Bough; Yellow Transparent, pale yellow (August).

EARLY AUTUMN: Early Strawberry; Jeffries.

LATE FALL: Gravenstein, large yellow, striped with red (September and October); Fall Pippin, large yellow (October); Dominie; Duchess.

SUMMER: Red Astrachan, crimson, yellow striped (August); Golden Beauty.

FALL: Alexander; Fameuse.

WINTER APPLES

EARLY WINTER: Golden Russet; Paradise Winter Sweet.

LATE WINTER: Rhode Island Greening, green (December); Rome Beauty; Winesap; Winter Banana, golden yellow, shaded crimson, good keeper.

WINTER: Baldwin, red (December to March); Northern Spy, red, striped (October to March); Tomkins King, red (November); Newtown Pippin, large, striped, dark crimson (November); Cox's Orange Pippin.

CRAB APPLES

Quoted on call.

PEACH TREES

4 to 5 feet.....\$0.30 each, \$2.50 per 10
5 to 6 feet......50 " 4.50 "
6 to 7 feet......75 " 6.50 "

The Wholesale circular names 48 varieties, giving time of ripening and pricing from 1 foot to 6 feet tall.

Ripening from June 25 to July 4: Admiral Dewey; Heiley's Early Belle; Triumph; May Flower.

Ripening from July 4 to July 12: Mamie Ross; Yellow St. John; Waddell.

Ripening from July 12 to July 28: Carman.

Ripening from July 28 to August 10: Crawford's Early, yellow, red cheek; Elberta, golden yellow, red striped; Mountain Rose, light and dark red cheek; Belle of Georgia.

FRUIT DEPARTMENT

Victoria Currants

CURRANTS

3 years 15c. each, \$1.25 per 10, \$10.00 per 100

Cherry and Fay's Prolific, both red and very large; **Red Dutch**; **Victoria**, red; **La Versailles**; **Naples**, black (excellent for jellies); **White Dutch**.

Perfection. The best variety on the market. The color is a beautiful bright red. Size as large or larger than the Fay, the clusters averaging longer. The size of berry is well maintained to the end of the bunch. The Perfection has a long stem from point of attachment to the bush to the first berry, making it easy to pick without crushing any of the berries. The Perfection is a great bearer, resembling its parent the White Grape in this respect, superior to the Fay or any other large sort with which we are acquainted. The season of ripening is about the same as that of the Cherry or Fay. Rich, mild, sub-acid, plenty of pulp with few seeds. Less acid and of better quality than any other large currant in cultivation. The White Grape has always been considered one of the best varieties for table use, and the effect of this strain is plainly seen in the very fine quality of Perfection. In habit of growth it is intermediate between its parents Fay and White Grape, with remarkably large, healthy foliage. Prices: 2 years, 25c. each, \$2.00 per 10, \$16.00 per 100.

GOOSEBERRIES

	Each	Per 10	Per 100
Downing. Green, 2 to 3 years	\$0.20	\$1.75	\$15.00

Trees for Nut Orchards quoted on request.

PARAGON CHESTNUTS

3 to 4 feet.....\$1.00 each
 4 to 5 feet..... 1.50 " \$13.00 per 10

We give discount on ten or more tubs. Special
 prices given on large quantities.

Painted green in regular stock. Any color
 desired to order.

Nos. 1 and 2 have hook handles. Smaller sizes
 drop handles.

Tubs with arched feet are not kept in stock but
 will be made to order at two weeks' notice in any
 sizes from No. 1 to No. 9. Smaller than No. 9 are
 not made with feet.

Height given does not include length of feet, which
 varies between 2 inches on the small to 3½ inches
 on the large sizes.

We have in stock heavy tree tubs without feet as
 listed above No. 1 to No. 13.

Our plant tubs are made of oak, cedar and cypress
 with extra heavy staves and hoops. They will be
 found very strong and durable.

If you do not find what you want in the regular
 stock sizes, we will be glad to quote for any special
 sizes on receipt of specifications giving dimensions.

We make everything in the line of plant tubs.

SPRAYING, TRIMMING, ETC.

We contract for all kinds of tree and orchard
 work. We have a 2 H. P. spraying engine and ex-
 perience men for tree surgery, spraying, trimming,
 etc.

Ask for our prices.

Let us call on you and make a special contract
 to fix your orchards or the shade trees on your lawns.

*Ask for our fruit wholesale prices.
 Special wholesale circulars for all goods on
 application.*

Spraying

Dealers in Every Variety of Nursery Stock. Landscape Designers and Contractors

Designers and contractors for Summer Houses, Pergolas, Arbors, etc., of any design and any material and of any size, rustic Cedar or of White Birch, or ornate and expensive Greek or Byzantine designs.

Dealers in Lawn and Park Decorative Material such as :

Flower Vases, Boxes or Baskets, for Lawn or Window or Porch.
Statuary, Pedestals, Dials, etc.
Fountains.

Lawn and Park Benches, Seats and Tables.

Terraces in Stone; Terrace Stepways; Esplanades; Balustrades; Gateways in Stone, plain or exceedingly elaborate.

All the above material in either Terra Cotta or Pompeian Stone Bronze. The latter is now a very popular material among architects and landscapers, because as beautiful as Terra Cotta and more durable; it is more adaptable, being made in any color or in perfect imitation of any stone. It is susceptible of as much delicacy of form and design as carved stone and is as strong and lasting. All at manufacturers' prices.

Rustic Work of all kinds. Fences, Bridges, Screening Trellises, and as indicated in the first paragraph.

Consult our Catalogues and Circulars, or send for special price lists and information.

All Agency Goods at Manufacturers' Prices

AGENCIES

Careful spraying produces the only profitable crop; parasites live on the profits. We handle the celebrated Sherwin-Williams' line of spray chemicals and will be glad to supply your requirements at the following prices:

LIME-SULPHUR SOLUTION. For all sucking insects, such as the San Jose scale and for fungous growths and rots. A perfectly clear solution of the highest quality. Qt. 15c., $\frac{1}{2}$ gal. 25c., gal. 40c., 5 gal. \$1.50, 25 gal. $\frac{1}{2}$ bbls. \$4.50, 50 gal. bbls. \$8.00.

NEW PROCESS ARSENATE OF LEAD (Paste). A neutral combination of arsenic oxide and lead, which stays in suspension. Gives a good even distribution of the poison over the foliage and will remain on the foliage longer than any other form of Arsenate of Lead. 1-lb. jars 20c., 5-lb. crocks 60c., 25-lb. crocks \$2.50, 100-lb. kegs \$8.25. Quantity prices quoted on request.

NEW PROCESS ARSENATE OF LEAD (Powdered). Prices quoted on request.

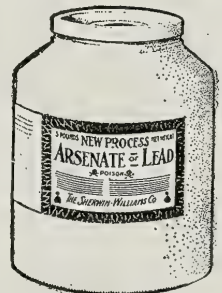

PARIS GREEN. This is a thoroughly neutral green, containing no grit or heavy granular particles, and the lightest green on the market. It mixes readily and stays mixed. $\frac{1}{4}$ -lb. cartons 10c., $\frac{1}{2}$ -lb. cartons 15c., 1-lb. cartons 20c., 2- and 5-lb. cartons 19c. per lb., 14- 28- and 56-lb. kits 18c. per lb., 100-lb. kegs \$17.00. Quantity prices quoted on request.

BORDEAUX MIXTURE (Paste). A thorough combination of the best ingredients for use where Bordeaux Mixture is required for fungous troubles; rots, etc. 1-lb. jars 15c., 5-lb. jars 50c., 25-lb. jars \$2.00. Quantity prices quoted on request.

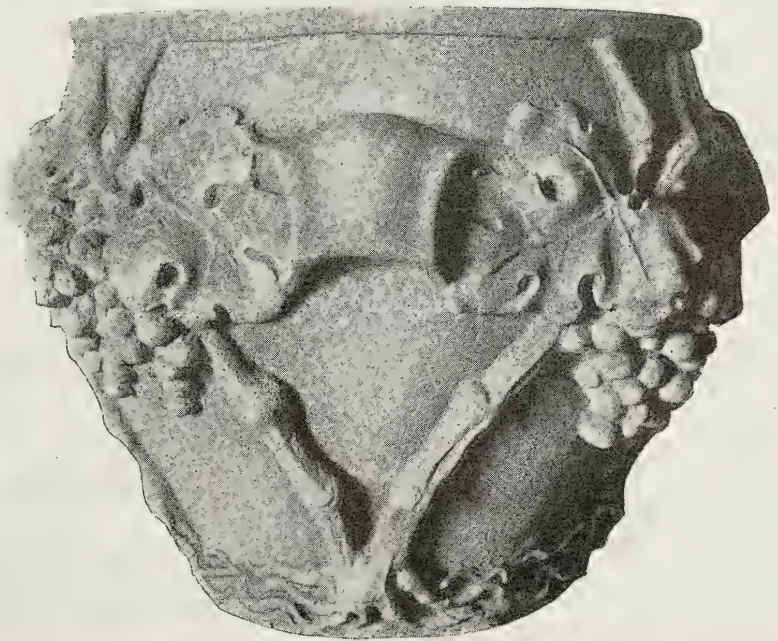

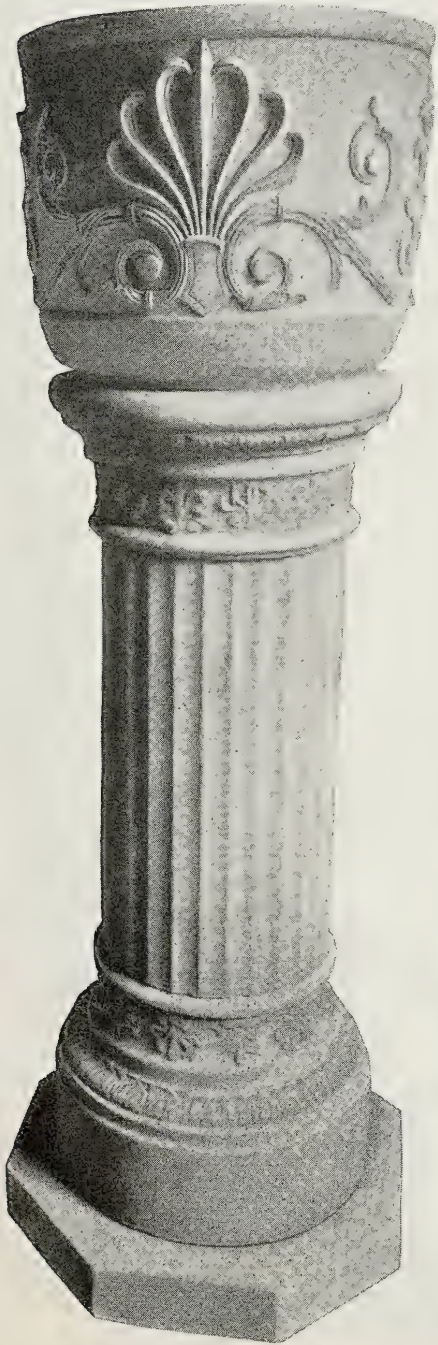

PRUNING COMPOUND. A linseed oil product for painting and protecting the wood after pruning. It thoroughly seals the cut, preventing rot or insect injury. Qt. 25c., gal. 75c. Quantity prices quoted on request.

CARBOLINOL. Wood preservative and vermicide for dipping fence posts, painting silos and similar purposes; also for spraying against vermin. 1-gal. cans \$1.00, 5-gal. cans \$4.00, 25-gal. $\frac{1}{2}$ -bbls. \$17.50, 50-gal. bbls. \$30.00.

The above prices are F. O. B. your point, with the exception of Lime-Sulphur Solution in bbls. and $\frac{1}{2}$ bbls., which are F. O. B. Newark, N. J., and are according to our regular terms.
